Nash, 2016-12-14 This volume originates from the fourth and fifth Intercultural Horizons conferences held in New York and Sardinia respectively. Promise John T. Kneebone, Eugene P. Trani, 2020-09-22 Founded in Richmond in 1968, Virginia Commonwealth University (VCU) began with a mission to build a university to serve a city emerging from the era of urban crisis, desegregation, white flight, political conflict, and economic decline. With the merger of the Medical College of Virginia and the Richmond Professional Institute into the single state-mandated institution of VCU, the two entities were able to embrace their mission and work together productively. In *Fulfilling the Promise*, John Kneebone and Eugene Trani tell the intriguing story of VCU and the context in which the university was forged and eventually thrived. Although VCU's history is necessarily unique, Kneebone and Trani show how the issues shaping it are common to many urban institutions: from engaging with two-party politics in Virginia and African American political leadership in Richmond to fraught neighborhood relations, the complexities of providing public health care at an academic health center, and an increasingly diverse student body. As a result, *Fulfilling the Promise* offers far more than a stale institutional saga. Rather, this definitive history of one urban setting state university illuminates the past and future of American public higher education in the post-1960s era. *Research Anthology on Fake*

News, Political Warfare, and Combatting the Spread of Misinformation Management Association, Information Resources, 2020-10-30 With recent headlines around fake news from world leaders and around presidential elections, Twitter and other social media platforms being pressured to detect and label misinformation posted on their platforms, as well as misinformation around COVID-19 and its vaccine, the world has seen an increase in protests, policy changes, and even chaos surrounding this information. University and Stanford University USA which focuses on understanding fake news how it spreads its negative effects and current solutions being investigated While highlighting topics such as fake news trending conspiracy theories media distrust political warfare and detection methods this book is ideally intended for practitioners stakeholders researchers academicians and students interested in the continuing surge of fake news and its at times dangerous results **The Struggle for**

Change Marvin T. Chiles, 2023-12-28 A Black majority city with a history of the most severe segregation and inequity Richmond is still grappling with this legacy as it moves into the twenty first century Marvin Chiles now offers a unique take on Richmond s racial politics since the civil rights era by demonstrating that the city s current racial disparities in economic mobility housing and public education actually represent the unintended consequences of Richmond s racial reconciliation measures He deftly weaves municipal politics together with grassroots efforts examining the work and legacies of Richmond s Black leaders from Henry Marsh on the city council in the 1960s to Mayor Levar Stoney to highlight the urban revitalization and public history efforts meant to overcome racial divides after Jim Crow yet which ironically reinforced racial inequality across the city Compellingly written this project carries both local and broader regional significance for Richmonders Virginians southerners and all Americans **Race in American Television** David J. Hayter, Amy L. Howard, 2024-12-02 Richmond Virginia took center stage globally in the summer of 2020 as an epicenter of antiracist protests in the wake of the police murder of George Floyd In a period of just a few weeks overwhelming public support grew for removing Richmond s Confederate monuments Activists then transformed the remaining statue of Robert E Lee into a shrine to African American resolve to the Black Lives Matter movement and to Black victims of police brutality Coming to terms with Richmond s tortured racial history however is much more difficult than toppling symbols of white

supremacy This book explores these dynamics via a multidisciplinary framework of historical research public policy analysis and political analysis showing the inner dynamics of politics and governance in Richmond The authors reveal why change and progress has often been so difficult to achieve and why that matters with a focus on three fundamental policy areas education economic development and housing The result is a comprehensive assessment of urban governance in a major southern city in the early twenty first century as well as an accounting of the policy and human consequences of both its limited successes and its recurring failures

Refining Prevention: Genetic and Epigenetic Contributions Steven Beach, Jessica McDermott Sales, 2016-04-11 Currently most prevention efforts are famed as universal interventions However despite the demonstrated efficacy of many prevention programs variability in response is the rule with some participants responding very little and others accounting for the bulk of the positive impact of the program Better understanding the processes associated with better and worse response to prevention is a critical first step in refining and adapting existing programs or alternatively designing new prevention programs with enhanced outcomes Because vulnerabilities to substance use emotional problems risky sexual behavior and other behavioral problems are influenced by a combination of environmental genetic and epigenetic factors mediated in part through psychological processes Kreek et al 2005 Rutter et al 2006 the study of genetic and epigenetic vulnerability and susceptibility factors provides an important starting point for efforts to address this critical need A growing body of research on differential genetic susceptibility indicates that efforts to enhance prevention impact may benefit from consideration of the contribution of individual genetic differences to treatment response Brody et al 2013 In addition the recent expansion of genetic research to include a focus on epigenetic change provides considerable promise for the development of indicated prevention and individually tailored prevention efforts However before this promise can be realized a number of theoretical and practical challenges remain Thus through this special section we propose to provide a foundation for a new era of prevention research in which the principles of prevention science are combined with genomic science In the current special section we will bring together authors to deal with genetic and epigenetically driven processes relevant to depression substance abuse and sexual risk taking Together they will comment on and provide data relevant to assessment research and statistical methods development of biomarkers and implementation strategies with disadvantaged and high risk populations The papers will help to inform the development of a new generation of prevention programs that go beyond universal programs and sensitively target key processes while providing greater precision regarding prediction of population level impact Brody GH Beach SRH Hill KG Howe GW Prado G Fullerton SM 2013 Using genetically informed randomized prevention trials to test etiological hypotheses about child and adolescent drug use and psychopathology American Journal of Public Health 103 Suppl 1 S19 24 Doi 10.2105/AJPH.2012.301080 Kreek MJ Nielsen DA Butelman ER LaForge KS 2005 Genetic influences on impulsivity risk taking stress responsiveness and vulnerability to drug abuse and addiction Nature Neuroscience 8 1450 1457 Rutter M Moffitt TE Caspi A 2006 Gene environment interplay and
