What Is The Difference Between Nsfas And Nfsas:

Perspectives on Student Affairs in South Africa McGlory Speckman, Martin Mandew, 2014-07-17 The goal of *Perspectives on Student Affairs in South Africa* is to generate interest in student affairs in South Africa. The papers contained herein are based on best practice local experience and well researched international and local theories. The papers in this book deal with matters pertaining to international and national trends in student affairs, academic development, access and retention, counselling and material support for students coming from disadvantaged backgrounds. They are linked to national and international developments as described in the first two papers. This publication will assist both young and experienced practitioners as they grow into their task of developing the students entrusted to them. All contributors are South Africans with a great deal of experience in student affairs and all are committed to the advancement of student affairs in South Africa. The editors are former heads of student affairs portfolios at two leading South African universities. [Social Justice and Education in the 21st Century](#) Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place. There are high and low income countries and high and low income households. For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities. This pattern often reproduces the privileges and inequalities of groups in a society. This book explores this differentiation in education from a social justice lens. Comparing the United States and South Africa, this book analyzes each country's developmental thinking on education from human capital and human rights approaches in both primary and higher education. The enclosed contributions draw from different disciplines including legal studies, sociology, psychology, computer science and public policy. **A GUIDE TO BEING AN EXTRAORDINARY STUDENT** Jeremia Lelosa, Mahlodi Kgatle, Morongwa Maifo, Sibusiso Gama, Treasure Mokalapa, Tieho Hans, 2017-03-04 This is an inspirational and motivational book for students at University and or College as well as those who have aspirations of furthering their studies at university and or college post matric. The contributors from various institutions of higher learning in South Africa share their secrets to success in this collection of experiences. The contributors share their philosophies of success, they share strategies they have employed which managed to assist them in graduating. Students in particular, junior students will benefit immensely from the comprehensive coverage of core study skills and learning strategies presented in a straightforward and relatable manner. The book also helps students avoid academic exclusion and inspires them to achieve academic excellence. However, this book does not only cover academic success. It also covers leadership and entrepreneurship which are necessary elements in today's fast and changing world. Unlike any other student success guide books that are currently on the market, this book is unique and offers a broad perspective from many students. Again, the book is written by people with a lived experience. It offers an insider view. This book was written by leaders of Faculty of Best Advisory FBA, published and is distributed by Club Readership. [The Youth Dividend](#) Jan H. Hofmeyr, 2012 **Student Politics in Africa** M. Luescher, Manja Klemencic, 2016-05-12 The second volume

of the African Higher Education Dynamics Series brings together the research of an international network of higher education scholars with interest in higher education and student politics in Africa. Most authors are early career academics who teach and conduct research in universities across the continent and who came together for a research project and related workshops and a symposium on student representation in African higher education governance. The book includes theoretical chapters on student organising, student activism and representation, chapters on historical and current developments in student politics in Anglophone and Francophone Africa, and in-depth case studies on student representation and activism in a cross section of universities and countries. The book provides a unique resource for academics, university leaders and student affairs professionals as well as student leaders and policy makers in Africa and elsewhere. Student Activism in the Global South Kurauone Masungu, 2024-09-01. This book makes an original conceptual and empirical contribution to debates on the role of student activism in enhancing social justice within education in the Global South, using South Africa as a case study. The book explores the development of higher education students' political capabilities through student activism, that is, the freedom to express political ideas and engage in protests, including the following key capabilities: participation, dialogue, practical reasoning, voice, emotional expression, contextual knowledge, and physical wellbeing. The author considers the possibility of enhancing justice and democracy in higher education through the formation of such student freedoms. The book will be of interest to academics and researchers in student activism, higher education, and social justice, as well as institutional staff members with knowledge of student governance, members of student representative councils, and higher education administrators. **Higher Education**, 2023-11-02. COVID wrought havoc on the world's economic systems. Higher education did not escape the ravages brought on by the pandemic, as institutions of higher education around the world faced major upheavals in their educational delivery systems. Some institutions were prepared for the required transition to online learning; most were not. Whether prepared or not, educators rose to the challenge. The innovativeness of educators met the challenges as digital learning replaced the face-to-face environment. In fact, some of the distance models proved so engaging that many students no longer desire a return to the face-to-face model. As with all transitions, some things were lost while others were gained. This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century. The book is organized into four sections: Perils and Promises, The State of Online Education, Goals and Challenges of Online Learning, and Innovations in the Age of COVID. It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process. These discussions shed light on the impact of the pandemic and the future of higher education post-COVID. Higher education has been forever changed, and higher education as it once was may never return. While many questions arise, the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights.

Corrupted Jonathan D Jansen, 2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities
