Narrative Power and Liberal Truth Eldon J. Eisenach, 2002 Liberal political thought from its origins in the seventeenth century through today's rights discourse is grounded in the ideal of the autonomous individual. As the theory holds, these individuals are born in freedom from religious, political, social, or economic obligations and then construct these systems through individual and collective choices. Over the past thirty years, however, this understanding of freedom has been challenged from a variety of perspectives. Eldon J. Eisenach has been at the forefront of that challenge, stressing the centrality of religious elements and assumptions in liberal writings that many scholars suppressed or ignored. In *Narrative Power and Liberal Truth*, Eisenach brings together eleven of his previously published essays to demonstrate that many postmodernist ideas of persons and freedom are already present within the tradition of liberal political philosophy and that liberalism itself is more capacious of human experience and meanings than modern critiques allow.

English Alison Head, 2008 *Learn and Practise* provides a focused set of learning books for attainment levels 3, 4, and 5. Level 3 English contains accessible revision content and clear practice material on a double page spread appropriate to that ability level.

Life Course Kurt W. Back, 2019-03-13 In this interdisciplinary study of the human life course as a unit, scholars examine aspects of the life course looking at several features over a short span and at a few traits over a longer period. It provides an overview from disciplines e.g. history, demography, sociology that are concerned with understanding the human life course. It contains studies of special populations in which integration of a variety of experiences over time can be accomplished. Based on these approaches, new methods appropriate to a science of human life are proposed and discussed in a form suitable for students, faculty, and professionals in human development, sociology, anthropology, psychology, demography, and gerontology.

Domestic Tyranny Elizabeth Hafkin Pleck, 2004 Elizabeth Pleck's *Domestic Tyranny* chronicles the rise and demise of legal, political, and medical campaigns against domestic violence from colonial times to the present. Based on in-depth research into court records, newspaper accounts, and autobiographies, this book argues that the single most consistent barrier to reform against domestic violence has been the Family Ideal, that is, ideas about family privacy, conjugal and parental rights, and family stability. This edition features a new introduction surveying the multinational and cultural themes now present in recent historical writing about family violence.

The Annual Register Edmund Burke, 1924 Continuation of the reference work that originated with Robert Dodsley, written and published each year which records and analyzes the year's major events, developments, and trends in Great Britain and throughout the world. From the 1920s, volumes of *The Annual Register* took the essential shape in which they have continued ever since, opening with the history of Britain, then a section on foreign history covering each country or region in turn. Following these are the chronicle of events, brief retrospectives on the year's cultural and economic developments, a short selection of documents, and obituaries of eminent persons who died in the year.

Koosed, 2006-07-01 Per mutations of Qohelet explores the question Who is Qohelet Rather than peering behind or through the text to answer this question in terms of authorship Koosed analyzes the identity that is created through the words on the page The text is not a transparent medium connecting reader with author instead it is an opaque body it has weight substance skin Koosed begins with an analysis of the ways in which words construct identities and the reasons why words can affect us so profoundly relying primarily on the work of Judith Butler and Elaine Scarry She then explores autobiography and how the genre of autobiography as reconfigured by Roland Barthes and Jacques Derrida relates to Qohelet These two chapters then set the framework for what follows an analysis of the various bodily organs and sensations contained within the book of Qohelet The body is embedded in the text through the naming of body parts eye hand heart And this same body is encoded in form structure and syntax so that the text becomes a body with organs systems and even a life of its own The book is a body and the book speaks of bodies It speaks of the body s organs and senses it concerns itself with the pleasures and pains of the body the gendered body the dying body Finally the ritual body is highlighted in the final passage of this enigmatic book
