

Formatting Multiple Answer Questions

Multiple answer questions can be composed in a word processing program (i.e. Microsoft Word) and imported into Blackboard via Respondus. The steps below outline how to properly format the word document that will eventually be imported into Respondus. It is imperative that the document be formatted exactly as described below.

NOTE: Before continuing, turn off Auto Numbering, as this may interfere with the Respondus import process.

1. The first line of formatting must begin with **Type: MA**. This is followed by a title (optional) and the question number, a period, a space, and the question text.

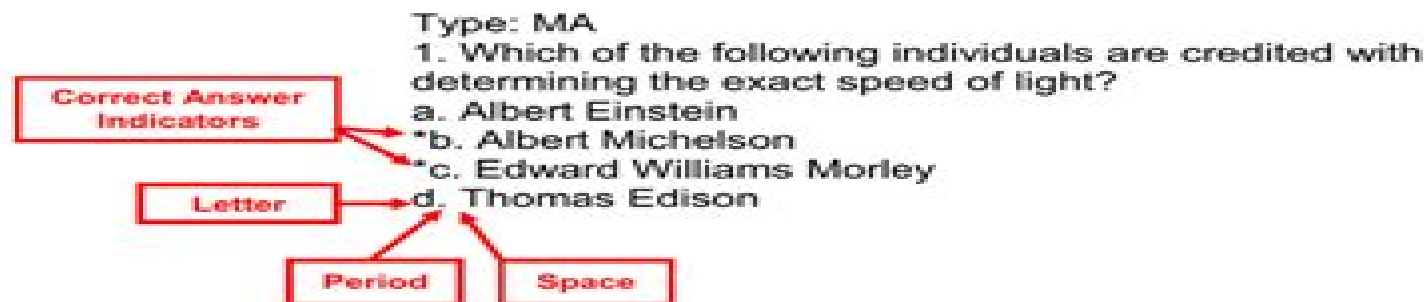

EXAMPLE (enlarged to show detail):

NOTE: Ensure that the question is not formatted using the Auto Numbering feature. This may interfere with the test import process.

2. Begin answer choices on a new line with a letter (a-i) followed by a period (.) and a space.
3. Indicate the correct answers by entering an asterisk (*) before each correct choice. Do not include any spaces before or after the asterisk.
