daringly self conscious aware of its style and the entrapment it arouses from the very first line The reactions provoked by fashion s flair not only among the philosophical set but also among those who would never deck themselves out in the title philosopher show it forth as perhaps philosophy s most important and underestimated doppelgänger *Surface* Giuliana Bruno, 2014-06-09 What is the place of materiality the expression or condition of physical substance in our visual age of rapidly changing materials and media How is it fashioned in the arts or manifested in virtual forms In *Surface* cultural critic and theorist Giuliana Bruno deftly explores these questions seeking to understand materiality in the contemporary world Arguing that materiality is not a question of the materials themselves but rather the substance of material relations Bruno investigates the space of those relations examining how they appear on the surface of different media on film and video screens in gallery installations or on the skins of buildings and people The object of visual studies she contends goes well beyond the image and engages the surface as a place of contact between people and art objects As Bruno threads through these surface encounters she unveils the fabrics of the visual the textural qualities of works of art whether manifested on canvas wall or screen Illuminating the modern surface condition she notes how façades are becoming virtual screens and the art of projection is reinvented on gallery walls She traverses the light spaces of artists Robert Irwin James Turrell Tacita Dean and Anthony McCall touches on the textured surfaces of Isaac Julien s and Wong Kar wai s filmic screens and travels across the surface materiality in the architectural practices of Diller Scofidio Renfro and Herzog de Meuron to the art of Doris Salcedo and Rachel Whiteread where the surface tension of media becomes concrete In performing these critical operations on the surface she articulates it as a site in which different forms of mediation memory and transformation can take place Surveying object relations across art architecture fashion design film and new media *Surface* is a magisterial account of contemporary visual culture *Touching the Earth (EasyRead Large Bold Edition)* Nhất Hạnh (Thích.), 1994 One of the most powerful acts of devotion is also one of the most simple bowing down and surrendering to the earth This is the basis for The Five Prostrations a time honored Buddhist meditation practice that joins the mind and body in a graceful prayer to divine creation On *Touching the earth* Buddhist masters Thich Nhat Hanh and Sister Ch Khn g update this ancient teaching for the modern student **Philosophy of Perception** William Fish, 2010-05-07 The philosophy of perception investigates the nature of our sensory experiences and their relation to reality Raising questions about the conscious character of perceptual experiences how they enable us to acquire knowledge of the world in which we live and what exactly it is we are aware of when we hallucinate or dream the philosophy of perception is a growing area of interest in metaphysics epistemology and philosophy of mind William Fish s *Philosophy of Perception* introduces the subject thematically setting out the major theories of perception together with their motivations and attendant problems While providing historical background to debates in the field this comprehensive overview focuses on recent presentations and defenses of the different theories and looks beyond visual perception to take into account the role of other senses Topics covered include the

phenomenal principle perception and hallucination perception and content sense data adverbialism and idealism
disjunctivism and relationalism intentionalism and combined theories the nature of content veridicality perception and
empirical science non visual perception With summaries and suggested further reading at the end of each chapter this is an
ideal introduction to the philosophy of perception **Encountering Buddhism** Seth Robert Segall,2012-02-01 Creatively
exploring the points of confluence and conflict between Western psychology and Buddhist teachings various scholars
researchers and therapists struggle to integrate their diverse psychological orientations psychoanalytic humanistic cognitive
behavioral transpersonal with their diverse Theravada and Mahayana Buddhist practices By investigating the degree to
which Buddhist insights are compatible with Western science and culture they then consider what each philosophical
psychological system has to offer the other The contributors reveal how Buddhism has changed the way they practice
psychotherapy choose their research topics and conduct their personal lives In doing so they illuminate the relevance of
ancient Buddhist texts to contemporary cultural and psychological dilemmas *Touching the Invisible* Chris
McAlister,Jeremy Halpin,Jan Nevelius,2021-01-29 Three experienced Shiatsu practitioners share knowledge and insights
gained over thirty years of clinical practice and teaching to create a book they themselves would have wanted to provide
practical guidance and philosophical perspective on this healing art The book s central themes are awareness intuition and
intention in the practice of Shiatsu and how this body mind perspective can influence the wider health debate A modern
rendering of the ancient wisdom underpinning Shiatsu and Oriental medicine this book goes beyond the technical details of
Shiatsu as a specific therapy to the universal principles underlying it Presenting Shiatsu from different perspectives ranging
from its philosophical underpinnings to the realities of daily practice this text represents the fruit of the knowledge we apply
and continually re evaluate in our ongoing clinical work The question and answer format is based upon classical tradition the
most famous text within traditional Oriental medicine Huang Di Nei Jing uses this method to illustrate complex ideas in an
easy to read manner The text is organically formed through questions formulated by our student and fellow practitioner
Filippa Freed These questions stemming from her training and practice facilitate a broad discussion that roams freely
between technical principles case studies and informal anecdotes **The Path of Our Growth in Life** Witness
