Forty-seven pounds of lead in a suit bag, which was fastened around George's neck.

Two years in prison and a \$1,000 fine for each ball removed from the bag.

INTRODUCTION TO COLLEGE PHILOSOPHY Victor Moeller, 2013-07-11

This college course, an Introduction to Philosophy, is not a history of the great philosophers and their systems. It is not a survey of the traditional divisions of philosophy: metaphysics, epistemology, phenomenology, ethics, politics, and aesthetics. It is, however, a process of doing philosophy that takes up some of the basic questions and problems that we will all encounter in life sooner or later. It is also an application of the Socratic method of teaching and learning that develops habits of independent critical and reflective thinking. It is a series of Socratic seminars on the Great Books by the greatest faculty of the Western world and a process that illustrates how to pass from the world of work, need, and empirical science into the world of all things, beings, that Being provides. The Heath Introduction to Literature Alice S. Landy, 1996. At about half the length and a much lower price than comparable anthologies, this introductory anthology of short fiction, poetry, and drama is organized by genre and features chapter introductions and a bibliography of film adaptations. Readings have been chosen with an eye toward classic selections and gender balance while allowing the book to retain the teachability and traditional emphases for which it has long been admired. *Socratic Seminars in Middle School* Victor Moeller, Marc
