It is Mogel's singular achievement that she makes these teachings relevant for any era and any household of any faith. A unique parenting book designed for use both in the home and in parenting classes with an on line teaching guide to help facilitate its use. *The Blessing of a Skinned Knee* is both inspiring and effective in the day to day challenge of raising self reliant children. *School Library Journal*, 2000. *Many Texts, Many Voices* Penny Silvers, Mary C. Shorey, 2012. On any given day a visitor to Mary Shorey's classroom will find elementary students using a variety of learning tools from books to wikis and blogs to pose critical questions about the world and take action to make a difference in the lives of others. Whether sponsoring a book drive for victims of Hurricane Katrina using a multimedia presentation to persuade the principal to adopt their recycling plan or challenging a senior citizen's eviction it's all in a day's work for Mary's students. Her young learners are becoming conscious consumers, creative thinkers and effective communicators even while fulfilling the mandated curriculum and Common Core Standards. As Shorey and coauthor Penny Silvers write in *Many Texts, Many Voices* Critical literacy requires that the reader/consumer examine multiple perspectives and ask: Whose interests are being served and Whose voice is heard or silenced? Rather than an addition to a lesson or curriculum, critical literacy is a way of thinking, communicating, analyzing and living a literate life. Critical literacy also implies the possibility of taking some kind of social action in order to support a belief, make a difference or simply help during a time of need. Always mindful of what is appropriate for young children, Shorey and Silvers continually search for opportunities to embed critical literacy and inquiry in the everyday lives of primary students. Through a rich array of rubrics, sample lessons, text sets, unit designs and professional resources, Silvers and Shorey share their reflective practices so that all teachers can use print, visual and digital tools to transform student learning.

The Power of Picture Books in Teaching Math and Science Lynn Columbia, 2017-05-12. This book's 50 plus lessons, each based on a different picture book or story, will help classroom teachers build a foundation for teaching math, science and social studies concepts to their students. Each lesson uses children's literature to make challenging abstract concepts relevant to children's lives, inviting them to learn these concepts while responding to a story's illustrations, theme, characters and plot. The lessons also demonstrate how teachers can use children's literature to meet national standards in math, science and social studies. Chapters 1 through 5 set the stage for using picture books, discussing the effective, imaginative integration of literature into the classroom. Teachers will learn to create an environment that ensures that when children and books come together, the experience is enjoyable and thought provoking. Chapters 6 through 9 provide individual lessons by grade level with detailed activities based on specific books.
