Lao Tzu and Anthroposophy Kwan-Yuk Claire Sit,2012-05 Having imagined a machine like world scientists now haunt this machine uneasily Their plight is paradoxical they have realized their world only through intense mental effort yet this effort finds no legitimate place in the world it so painstakingly comprehends It seems objectivity only comes at a cost Why for example is science unable to describe a smile Why is the moral life of a physicist regarded as his or her own private affair This exclusion of human qualities from science has practical as well as theoretical consequences If we systematically imagine a world in which human beings don t exist we will eventually create a world in which they cannot exist Reclaiming the human sources of scientific insight the authors of this book restore the scientist to the world given by science and celebrate the joyous marriage of sense and thought
