A bold, contemporary new package as impressive as it is open. The Eleventh Edition features a beveled metal plate set in a sleek black cloth cover. Ribbon Markers included as a convenient and helpful way to mark favorite and well-used spots in the book. All New material. Thoroughly reviewed and edited by hundreds of building science experts and experienced architects, all new details and content including new structural technologies, building systems, and materials, emphasis on sustainable construction, green materials, LEED standards, and recyclability, expanded and updated coverage on inclusive, universal, and accessible design strategies, computing technologies including Building Information Modeling (BIM) and CAD/CAM, new information on regional and international variations, accessibility requirements keyed throughout the text, new standards for conducting, disseminating, and applying architectural research.
