Shooting to Kill Simon Bronitt, Miriam Gani, Saskia

Hufnagel, 2012-11-05 The present book brings together perspectives from different disciplinary fields to examine the significant legal moral and political issues which arise in relation to the use of lethal force in both domestic and international law These issues have particular salience in the counter terrorism context following 9 11 which brought with it the spectre of shooting down hijacked airplanes and the use of force in Operation Kratos that led to the tragic shooting of Jean Charles de Menezes Concerns about the use of excessive force however are not confined to the terrorist situation The essays in this collection examine how the state sanctions the use of lethal force in varied ways through the doctrines of public and private self defence and the development of legislation and case law that excuses or justifies the use of lethal force in the course of executing an arrest preventing crime or disorder or protecting private property An important theme is how the domestic and international legal orders intersect and continually influence one another While legal approaches to the use of lethal force share common features the context within which force is deployed varies greatly Key issues explored in this volume are the extent to which domestic and international law authorise pre emptive use of force and how necessity and reasonableness are legally constructed in this context

Spitz and Fisher's Medicolegal Investigation of Death Werner U. Spitz, Francisco J.

Diaz, 2020-07-20 This is not just a new edition but a different book emphasizing trauma and wound analysis The addition of a new co editor Dr Francisco J Diaz has brought new ideas to this fifth edition A chapter by Doctor Jan Leetsma world renowned neuropathologist has also been included Doctor Leetsma s vast experience in forensic neuropathology will certainly enhance this book Several chapters have been eliminated that are no longer applicable or which are adequately covered in other publications Over time in the past 48 years since this book was first published *Medicolegal Investigation of Death* has been dubbed the Bible of Forensic Pathology The fifth edition includes over 600 case reports and hundreds of color photographs The cases are from files the authors have personally handled According to author Spitz We have found many times analysis of small wounds will lead to understanding of a giant case like the case in Hawaii where a body was found under a full size van with a thread mark on the cheek consistent with having been hit with a black pipe used for gas lines that were found in a bucket in the rear of the van As it turned out this was a murder not an accident The book is full of such cases This book will help you understand the details of injuries and how a person was injured and how they died and how these injuries perhaps at first blush possibly seemingly insignificant can shed new light on a case *Medicolegal Investigation of Death* now embraces not just basic forensic pathology but also includes death during restraint conscious pain and suffering and new concepts related to the interpretation of injuries by detailed wound analysis The continued use of simple non technical terminology makes this book a truly unique treatise and source of information
