Russell Foster Now we need to make Italians Semiotics and Semantics in Teaching Cartography GEOGRAPHICAL NOTES AND PRACTICAL CONSIDERATIONS Maria Paradiso Between Krakow 2014 and Moscow 2015 TEACHINGS FROM THE PAST Halford Mackinder Geography as a Pivotal Subject in Education with comments by Davide Papotti Re reading Geography as a Pivotal Subject in Education by H Mackinder Law, Religion and Human Flourishing in Africa M. Christian Green, 2019-05-15 A shared interest of law and religion is the advancement of human flourishing yet there is no common understanding of what it means for humans to flourish and the means by which to attain a flourishing life The concept of human flourishing is especially important for Africa where community and national development compete with forces of conflict and scarce resources In the broadest sense the concept of human flourishing focuses our attention on having a comprehensively good or worthwhile life but various religious and legal traditions suggest different norms for measuring the quality of life and designing the institutional structures that could best facilitate and preserve it *The Sustainability Grand Challenge* Michael Gibbert, Liisa Välikangas, Marijane Luistro-Jonsson, 2020-11-26 How do universities tackle wicked sustainability challenges faced by society The Wicked Learning Workbook is a toolkit for setting up and running an interdisciplinary master level course in the context of real world problems such as food waste and loss The book offers a new pedagogical approach that we call wicked because it is unorthodox ambitious and tackles complex problems that won't go away The pedagogy is also international at the course level rather than the conventional exchange semester enabling institutions to embed international approaches to their core teaching The Wicked Learning Workbook speaks directly to academics who are looking for solutions that provide stimuli for research and teaching while giving students an innovative international learning experience The approach develops student understanding of the UN Sustainable Development Goals as broad scale societal issues which are difficult if not impossible to solve An important outcome of this approach is the laboratory style classroom that creates opportunities for faculty students and companies to co create solutions that are immediately implementable The resulting methodology is based on industry university collaboration such as IKEA and Nestl The methodology is of interest to corporate leaders pursuing sustainability goals and business transformation Achieving sustainability requires cross boundary cross disciplinary experimental approaches that allow for scalability Wicked problems can only be tackled with wicked solution approaches **Qualitative Research & Evaluation Methods** Michael Quinn Patton, 2014-10-29 Drawing on more than 40 years of experience conducting applied social science research and program evaluation author Michael Quinn Patton has crafted the most comprehensive and systematic book on qualitative research and evaluation methods inquiry frameworks and analysis options available today Now offering more balance between applied research and evaluation this Fourth Edition of Qualitative Research more than a hundred new summarizing and synthesizing exhibits and a wide range of new highlight sections sidebars that elaborate on important and emergent issues For the first time full case studies are included to illustrate extended research and evaluation examples In addition each chapter features
