Sandra Dinter, Ralf Schneider, 2017-11-15 In the light of the complex demographic shifts associated with late modernity and the impetus of neo liberal politics childhood continues all the more to operate as a repository for the articulation of diverse social and cultural anxieties Since the Thatcher years juvenile delinquency child poverty and protection have been persistent issues in public discourse Simultaneously childhood has advanced as a popular subject in the arts as the wealth of current films and novels in this field indicates Focusing on the late twentieth and the early twenty first centuries this collection assembles contributions concerned with current political social and cultural dimensions of childhood in the United Kingdom The individual chapters written by internationally renowned experts from the social sciences and the humanities address a broad spectrum of contemporary childhood issues including debates on child protection school dress codes the media the representation and construction of children in audiovisual media and literary awards for children's fiction Appealing to a wide scholarly audience by joining perspectives from various disciplines including art history education law film and TV studies sociology and literary studies this volume endorses a transdisciplinary and meta theoretical approach to the study of childhood It seeks to both illustrate and dismantle the various ways in which childhood has been implicitly and explicitly
