When We Believed In Magic:

Do You Believe In Magic? (A Wild Thing Book) Laura Krantz, 2024-10-08 Inspired by her popular Wild Thing podcast journalist Laura Krantz incorporates the scientific method and her journalistic skills to determine if magic might be real in *Do You Believe in Magic* Magic spells and curses hexes and potions superstition and rituals We've all heard stories of alchemists attempting to turn abundant lead into precious rare gold Or of poor unfortunate souls asking potion masters to brew up unappetizing concoctions that will help them find love And of course we're familiar with curses muttering magical words for the purposes of exacting revenge on an enemy or protecting a hidden treasure Who wouldn't like the idea of special powers or control over the natural world It seems pretty fun even if it's just the stuff of fantasy books and movies But a lot of what we call magic has grounding in real practices In fact magic is at the root of many scientific fields from chemistry to botany to astronomy and has been an important part of human culture for thousands of years *Do You Believe in Magic* takes readers through a world where magic and science collide What do they have in common Where do they differ What role has magic played in our history and the history of science Why is magic still significant even when it doesn't seem to line up with reality And is it possible to be scientifically minded and still believe in magic Readers are encouraged to weigh the facts and go beyond their gut assumptions to stretch their imaginations and think about why magic and science might be two sides of the same coin Includes color illustrations an at home science magic experiment glossary bibliography and index A Wild Thing series *The Search for Sasquatch Is There Anybody Out There Do You Believe in Magic* How We Believe Michael Shermer, 2000-11 Recent polls report that 96% of Americans believe in God Why is this Why despite the rise of science technology and secular education are people turning to religion in greater numbers than ever before Why do people believe in God at all **EXPOSING Lies We Believe About God** James B. De Young, Th.D., 2018-12-05 For years there has been uncertainty regarding Paul Young's *The Shack* Some have suspected heresy but have been unable to pin down exactly what Paul Young believed James De Young Th.D. who has known Paul Young for a couple decades wrote *Burning Down the Shack* to expose Christians to the fact that Paul Young espoused universalism Now the cat is out of the bag In his newest book *Lies We Believe about God* Young blatantly confesses adherence to universal reconciliation as well as twenty seven other beliefs that are heretical Here are some of Paul Young's unbiblical claims God is not in control of everything God submits to human beings God is a Christian God is a sexual being equally male and female People do not need to get saved Sin and hell do not separate people from God The cross was man's idea not God's People have a second chance to believe after death Everyone is a child of God Universal reconciliation has been accomplished for all people The God of evangelical faith tortured his child Jesus and is the perpetrator of evil Drawing upon his life long teaching of the Bible and the original languages James De Young appeals to the Bible to expose Paul Young as a heretic In appendices he also furnishes proof that Paul Young violates the Nicene Creed and the beliefs of the early church father Athanasius Finally we have a book written by one who is both

personally and academically qualified to expose the true nature of Young's writings De Young will empower you to Discover the heresy in Young's book Lies We Believe About God Expand your ability to answer the lies found in universal reconciliation Enhance your capacity to discern between the truth and falsehood Strengthen your confidence in the truth of the Bible

Reasons We Believe (Foreword by John MacArthur) Nathan Busenitz, 2008-07-22 Reasons We Believe will reinforce your personal faith and will provide you with a clear concise evangelistic tool to help you share that faith with others In an age of cynics and skeptics Christianity is constantly under attack Believers need resources that defend the veracity of their faith They are searching for clear concise and credible answers to both doubts of their own and objections from their unbelieving friends Nathan Busenitz provides such resources to believers Reasons We Believe confirms and strengthens the faith of believers by demonstrating the reliability of the twofold authority on which Christianity rests the Word of God and the person of Jesus Christ Reasons builds a biblical foundation for the authority of the Bible and then shows how extra biblical evidence corresponds with and thereby attests to what the Bible claims This study seeks to reinforce the faith of Christians while also providing them with a straightforward evangelistic tool for reaching non Christians **Believing in Magic**

Stuart A. Vyse, 2014 In this fully updated edition of Believing in Magic renowned superstition expert Stuart Vyse investigates our tendency towards these irrational beliefs Lies We Believe About God Wm. Paul Young, 2017-03-07 From the author of the bestselling novel The Shack and the New York Times bestsellers Cross Roads and Eve comes a compelling conversational exploration of twenty eight assumptions about God assumptions that just might be keeping us from experiencing His unconditional all encompassing love In his wildly popular novels Wm Paul Young portrayed the Triune God in ways that challenged our thinking sometimes upending long held beliefs but always centered in the eternal all encompassing nature of God's love Now in Wm Paul Young's first nonfiction book he invites us to revisit our assumptions about God this time using the Bible theological discussion and personal anecdotes Paul encourages us to think through beliefs we've presumed to be true and consider whether some might actually be false Expounding on the compassion fans felt from the Papa portrayed in The Shack now a major film starring Sam Worthington and Octavia Spencer Paul encourages you to think anew about important issues including sin religion hell politics identity creation human rights and helping us discover God's deep and abiding love **Why We Believe What We Believe** Andrew Newberg, Mark Robert Waldman, 2006-09-12 WHY DO YOU BELIEVE THE THINGS YOU BELIEVE Do you remember events differently from how they really happened Where do your superstitions come from How do morals evolve Why are some people religious and others nonreligious Everyone has

thoughts and questions like these and now Andrew Newberg and Mark Waldman expose for the first time how our complex views emerge from the neural activities of the brain Bridging science psychology and religion they demonstrate in simple terminology how the brain perceives reality and transforms it into an extraordinary range of personal ethical and creative premises that we use to build meaning value spirituality and truth into our lives When you come to understand this

remarkable process it will change forever the way you look at the world and yourself Supported by groundbreaking research including brain scans of people as they pray meditate and even speak in tongues Newberg and Waldman propose a new model for how deep convictions emerge and influence our lives You will even glimpse how the mind of an atheist works when contemplating God Using personal stories moral paradoxes and optical illusions the authors demonstrate how our brains construct our fondest assumptions about reality offering recommendations for exercising your most important muscle in order to develop a more life affirming flexible range of attitudes You ll discover how to Recognize when your beliefs are altered by others Guard against mental traps and prejudicial thinking Distinguish between destructive and constructive beliefs Cultivate spiritual and ethical ideals Ultimately we must always return to our beliefs From the ordinary to the extraordinary they give meaning to the mysteries of life providing us with our individual uniqueness and the ability to fill our lives with joy Most important though they give us inspiration and hope beacons to guide us through the light and dark corners of the soul
