Niels Brügger, Ian Milligan

When Did Facebook Start Timeline:

The History of Cybercrime Stein Schjolberg, 2020-02-21 The third edition of this book presents the history of computer crime and cybercrime from the very beginning with punch cards to the latest developments including the attacks in the context of the 2016 US Election Today the technological development of social media such as Google Facebook YouTube Twitter and more have been so rapid and the impact on society so fast and enormous that codes of ethics and public sentiments of justice implemented in criminal legislations have not kept pace Conducts in social media need a better protection by criminal laws The United Nations Declarations and principles for the protection of individual and human rights are fundamental rights also in Cyberspace The same rights that people have offline must also be protected online Cyber attacks against critical information infrastructures of sovereign States public institutions private industry and individuals must necessitate a response for global solutions In conducting investigation and prosecution of cybercrime countries should understand that international coordination and cooperation are necessary in prosecuting cross border cybercrime It is critical that the police work closely with government and other elements of the criminal justice system Interpol Europol and other international organizations

The SAGE Handbook of Web History Niels Brügger, Ian Milligan, 2018-12-10 The Web has been with us now for almost 25 years An integral part of our social cultural and political lives new media is simply not that new anymore Despite the rapidly expanding archives of information at our disposal and the recent growth of interest in web history as a field of research the information available to us still far outstrips our understanding of how to interpret it The SAGE Handbook of Web History marks the first comprehensive review of this subject to date Its editors emphasise two main different forms of study the use of the web as an historical resource and the web as an object of study in its own right Bringing together all the existing knowledge of the field with an interdisciplinary focus and an international scope this is an

incomparable resource for researchers and students alike Part One The Web and Historiography Part Two Theoretical and Methodological Reflections Part Three Technical and Structural Dimensions of Web History Part Four Platforms on the Web Part Five Web History and Users some Case Studies Part Six The Roads Ahead

Experiential Marketing Wided Batat,2020-12-27 Experiential marketing has become an indispensable tool for all types of businesses across multiple sectors This book provides an all encompassing practical and conceptual map of contemporary experiential case studies which together offer insights into this exciting approach to customer experience Experiential Marketing incorporates 36 international case studies from 12 key sectors from technology consumer goods and B2B to luxury events and tourism sectors With a selection of case studies from leading brands such as Coca Cola Nutella Chanel NASA The New York Times Pfizer and Amtrak the reader will learn and practice the experiential marketing tools and strategies through these examples Expert testimonials practical applied exercises and the author s online videos provide both theoretical foundations and concrete application This is a must read for advanced undergraduate and postgraduate Marketing and Customer Experience students and an excellent teaching resource It should also be of great use to practitioners particularly those studying for professional qualifications who are interested in learning experiential marketing strategies and developing knowledge about the way big brands in different sectors are designing the customer experience online and offline Online material includes lecture slides a test bank of questions an instructor s manual and explanatory videos

History beyond apartheid Thula Simpson,2023-04-18 This edited volume encompasses a range of themes and approaches relevant to the field of South African history today as viewed from the perspective of practicing historians at the cutting edge of research in the discipline The collection features the historians offering critical reflection on the theoretical and methodological aspects of their work This involves them both looking back at the inherited historiographical tradition in the respective areas of their research while also pointing forwards to possible future directions for scholarly engagement

The Technical and Social History of Software Engineering Capers Jones,2014 Pioneering software engineer Capers Jones has written the first and only definitive history of the entire software engineering industry Drawing on his extraordinary vantage point as a leading practitioner for several decades Jones reviews the entire history of IT and software engineering assesses its impact on society and previews its future One decade at a time Jones assesses emerging trends and companies winners and losers new technologies methods tools languages productivity quality benchmarks challenges risks professional societies and more He quantifies both beneficial and harmful software inventions accurately estimates the size of both the US and global software industries and takes on unexplained mysteries such as why and how programming languages gain and lose popularity

Public in Public History Joanna Wojdon,Dorota Wiśniewska,2021-07-29 Public in Public History presents international research on the role of the public in public history the ways people perceive respond to and influence history related institutions events services and products that deal with the past The book addresses theoretical reflections on the public or

multiple publics and their role in public history and empirical analyses of the publics active responses to and impact on existing forms of public history Special attention is also paid to digital public history which facilitates the double role of the public as both recipient and creator of public history With a multinational author team the book is based on various national but also international experiences and academic traditions each chapter goes beyond national cases to look transnationally The narratives built around their cases deal with issues such as arranging a museum exhibition managing a history related website analyzing readers comments or involving non professional public as oral history researchers With sections focusing on research commemorations museums and the digital world this is the perfect collection for anyone interested in what the public means in public history

The Qualified Self Lee Humphreys,2018-04-20

How sharing the mundane details of daily life did not start with Facebook Twitter and YouTube but with pocket diaries photo albums and baby books Social critiques argue that social media have made us narcissistic that Facebook Twitter Instagram and YouTube are all vehicles for me promotion In The Qualified Self Lee Humphreys offers a different view She shows that sharing the mundane details of our lives what we ate for lunch where we went on vacation who dropped in for a visit didn t begin with mobile devices and social media People have used media to catalog and share their lives for several centuries Pocket diaries photo albums and baby books are the predigital precursors of today s digital and mobile platforms for posting text and images The ability to take selfies has not turned us into needy narcissists it s part of a longer story about how people account for everyday life Humphreys refers to diaries in which eighteenth century daily life is documented with the brevity and precision of a tweet and cites a nineteenth century travel diary in which a young woman complains that her breakfast didn t agree with her Diaries Humphreys explains were often written to be shared with family and friends Pocket diaries were as mobile as smartphones allowing the diarist to record life in real time Humphreys calls this chronicling in both digital and nondigital forms media accounting The sense of self that emerges from media accounting is not the purely statistics driven quantified self but the more well rounded qualified self We come to understand ourselves in a new way through the representations of ourselves that we create to be consumed

Serendipity Science Samantha Copeland,Wendy Ross,Martin Sand,2023-07-14

This volume brings together for the first time the diverse threads within the growing field of serendipity research to reflect

both on the origins of this emerging field within different disciplines as well as its increasing influence as its own field with foundational texts and emerging practices The phenomenon of serendipity has been described in many ways since Horace Walpole initially coined the term in 1754 to categorize those discoveries that happen by both accidents and sagacity This book offers a sampling of perspectives from experts in serendipity research from organizational studies management theory information science and library studies psychology literature computer science social science ethics and the history and philosophy of science Considerations about the importance and role of serendipity are being raised now across science both empirical and theoretical as well as practice from art and innovation to leadership and governance with ever more eyes looking closer at its significance in human history and the likelihood it will play a key while unpredictable role in forming our future Serendipity Science represents an emerging and also important and potentially necessary field of study if we are to deal well as a society with our complex times and uncertain future

Analyzing and Securing Social Networks Bhavani Thuraisingham, Satyen Abrol, Raymond Heatherly, Murat Kantarcioglu, Vaibhav Khadilkar, Latifur Khan, 2016-04-06 Analyzing and Securing Social Networks focuses on the two major technologies that have been developed for online social networks OSNs i data mining technologies for analyzing these networks and extracting useful information such as location demographics and sentiments of the participants of the network and ii security and privacy technolo
