Information Sciences and Systems 2015 Omer H. Abdelrahman,Erol Gelenbe,Gokce Gorbil,Ricardo Lent,2015-08-20

The 30th Anniversary of the ISCIS International Symposium on Computer and Information Sciences series of conferences started by Professor Erol Gelenbe at Bilkent University Turkey in 1986 will be held at Imperial College London on September 22 24 2015 The preceding two ISCIS conferences were held in Krakow Poland in 2014 and in Paris France in 2013 The Proceedings of ISCIS 2015 published by Springer brings together rigorously reviewed contributions from leading international experts It explores new areas of research and technological development in computer science computer engineering and information technology and presents new applications in fast changing fields such as information science computer science and bioinformatics The topics covered include but are not limited to advances in networking technologies software defined networks distributed systems and the cloud security in the Internet of Things sensor systems and machine learning and large data sets

Tailored Organic-Inorganic Materials Ernesto Brunet,Jorge L. Colón,Abraham Clearfield,2015-05-29 This book explores the limitless ability to design new materials by layering clay materials within organic compounds Assembly properties characterization and current and potential applications are offered to inspire the development of novel materials Coincides with the government s Materials Genome Initiative to inspire the development of green sustainable robust materials that lead to efficient use of limited resources Contains a thorough introductory and chemical foundation before delving into techniques characterization and properties of these materials Applications in biocatalysis drug delivery and energy storage and recovery are discussed Presents a case for an often overlooked hybrid material organic clay materials

Report of the Sustainable Ocean Initiative Capacity-Building Workshop for the Wider Caribbean and Central America on Other Effective Area-Based Conservation Measures in the Marine Fishery Sector Food and Agriculture Organization of the United Nations,Secretariat of the Convention on Biological Diversity,2023-10-09 The Sustainable Ocean Initiative Capacity Building Workshop for the Wider Caribbean and Central America on Other Effective Area Based Conservation Measures OECMs in the Marine Fishery Sector was co organized by the Convention on Biological Diversity CBD Secretariat and the Food and Agriculture Organization of the United Nations FAO The workshop was held online on 20 21 April and 27 28 April 2022 It sought to establish a way forward to identify fisheries related OECMs in the Caribbean and provide technical input to prepare and test FAO s practical guidance for identifying evaluating and reporting OECMs in marine fisheries The main points covered during the expert meeting related to introducing participants to the OECM concept providing an overview of the regional initiatives for biodiversity conservation and exploring the current and potential place of fisheries management and OECMs in these regional initiatives providing participants with an overview of the criteria and subcriteria for OECM identification and providing participants with an overview of the OECM reporting process and the potential capacity building needs to identify evaluate and report OECMs in

the Wider Caribbean Region During the expert meeting participants conducted practical exercises by applying the OEMC criteria to eight real life case studies from Brazil Colombia Costa Rica Mexico and the United States of America Participants also discussed the role of OEMCs in recognizing conservation efforts the need to recognize fishers local culture in the OEMC process the incentives provided by OEMC recognition OEMC identification and evaluation and the use of international guidance to support the identification and evaluation of OEMCs

Communication and Computing Systems

B.M.K. Prasad, Krishna Kant Singh, Neelam Ruhil, Karan Singh, Richard O'Kennedy, 2017-02-15 This book is a collection of accepted papers that were presented at the International Conference on Communication and Computing Systems ICCCS 2016 Dronacharya College of Engineering Gurgaon September 9 11 2016 The purpose of the conference was to provide a platform for interaction between scientists from industry academia and other areas of society to discuss the current advancements in the field of communication and computing systems The papers submitted to the proceedings were peer reviewed by 2 3 expert referees This volume contains 5 main subject areas 1 Signal and Image Processing 2 Communication Computer Networks 3 Soft Computing Intelligent System Machine Vision and Artificial Neural Network 4 VLSI Embedded System 5 Software Engineering and Emerging Technologies

Intelligent Systems Technologies and Applications

Stefano Berretti, Sabu M. Thampi, Soura Dasgupta, 2015-08-26 This book contains a selection of refereed and revised papers from three special tracks Ad hoc and Wireless Sensor Networks Intelligent Distributed Computing and Business Intelligence and Big Data Analytics originally presented at the International Symposium on Intelligent Systems Technologies and Applications ISTA August 10 13 2015 Kochi India

Innovations in Computer Science and Engineering

H. S. Saini, Rishi Sayal, Aliseri Govardhan, Rajkumar Buyya, 2019-06-18 This book includes high quality peer reviewed research papers from the 6th International Conference on Innovations in Computer Science Engineering ICICSE 2018 held at Guru Nanak Institutions Hyderabad India from August 17 to 18 2018 The book discusses a wide variety of industrial engineering and scientific applications of the emerging techniques and offers a platform for researchers from academia and industry to present their original work and exchange ideas information techniques and applications in the field of computer science

Thermochemical Conversion of Biomass Feedstock and Solid Waste into Biofuels

Yan Jun Hu, Nan Zhou, Shurong Wang, Jianhua Yan, 2025-05-09 Thermochemical Conversion of Biomass Feedstock and Solid Waste into Biofuels Production and Pollutant Control offers a comprehensive overview of the state of the art in biofuel production with a special focus on pollutants control which is both necessary and beneficial for the target audience and the development of this research field Biofuel is currently a major trend due to the existing environmental crises and global energy challenges Developing sustainable biofuels from biomass feedstock and solid waste along with minimizing the formation of pollutants during the conversion processes are currently of significant academic and industrial importance drawing widespread attention Novel

processes reactions and catalysts are being rapidly developed and compiling this information is invaluable for keeping the audience informed and up to date In addition while research on the formation and transformation of pollutants such as heavy metals chlorine nitrogen and sulfur species are often conducted by environmental scientists and engineers it is less familiar to bioenergy researchers This book aims to bridge the gap between relevant disciplines and presents a comprehensive overview of the entire research field Provides a state of the art overview of thermochemical conversion processes catalytic upgrading reactions and catalysts related to biofuel production from biomass feedstock and solid waste Evaluates the latest processes reactions and catalysts related to thermochemical conversion of emerging solid waste such as plastic waste Introduces the formation and control mechanisms of organic pollutants during the conversion and upgrading processes from the perspective of environmental scientists and engineers

Computer Networks Piotr Gaj, Andrzej Kwiecień, Piotr Stera, 2015-05-27 This book constitutes the thoroughly refereed proceedings of the 22st International Conference on Computer Networks CN 2015 held in Brun w Poland in June 2015 The 42 revised full papers presented were carefully reviewed and selected from 79 submissions The papers in these proceedings cover the following topics computer networks distributed computer systems communications and teleinformatics

Intelligent Systems and Applications W.C.-C. Chu, H.-C. Chao, S.J.-H. Yang, 2015-04-14 This book presents the proceedings of the International Computer Symposium 2014 ICS 2014 held at Tunghai University Taichung Taiwan in December ICS is a biennial symposium founded in 1973 and offers a platform for researchers educators and professionals to exchange their discoveries and practices to share research experiences and to discuss potential new trends in the ICT industry Topics covered in the ICS 2014 workshops include algorithms and computation theory artificial intelligence and fuzzy systems computer architecture embedded systems SoC and VLSI EDA cryptography and information security databases data mining big data and information retrieval mobile computing wireless communications and vehicular technologies software engineering and programming languages healthcare and bioinformatics among others There was also a workshop on information technology innovation industrial application and the Internet of Things ICS is one of Taiwan s most prestigious international IT symposiums and this book will be of interest to all those involved in the world of information technology

Discovery and Development of Neuroprotective Agents from Natural Products Goutam Brahmachari, 2017-05-18 Discovery and Development of Neuroprotective Agents from Natural Products draws together global research on medicinal agents from natural sources as starting points for the design of neuroprotective drugs From the prediction of promising leads and identification of active agents to the extraction of complex molecules the book explores a range of important topics to support the development of safer more economical therapeutics for these increasingly prevalent diseases Beginning with an overview of current developments in the field the book goes on to explore the identification extraction and phytochemistry of such neuroprotective agents as antioxidants biophenols and naturally occurring anti inflammatory steroid analogues Specific

natural sources of bioactive agents are reviewed and the development of these agents into therapeutics for a number of specific neurological disorders including Alzheimer's disease Parkinson's disease and ischemic brain stroke are discussed Combining the expertise of specialists from around the world this in the Natural Products Drug Discovery series aims to support and encourage researchers in the investigation of natural sources as starting points for the development of standardized safe and effective neuroprotective drugs Features chapters written by active researchers and leading global experts deeply engaged in the research field of natural product chemistry for drug discovery Includes comprehensive coverage of cutting edge research advances in the design of drugs from natural products targeted at different kinds of neurodegenerative diseases Offers a practical review of identification isolation and extraction techniques to support medicinal chemists in the lab

Handbook of Nanofillers Shadpour Mallakpour, Chaudhery Mustansar Hussain, 2025-08-05 This handbook presents the basic concepts of nanofillers their types unique properties including their structure surface area properties real time applications The book discusses basics of nanofillers their types their structures and properties as well as several applications The chapters in this book cover latest developments applications in the food industry drug delivery tissue technology biosensors electrically conductive polymers and insulators green catalysis and environmental remediation The contents of these book will be useful to researchers industry practitioners and academics across disciplines of materials science chemistry biomedicine industrial engineering and chemical engineering

Futuristic Trends in Network and Communication Technologies Pradeep Kumar Singh, Gennady Veselov, Anton Pljonkin, Yugal Kumar, Marcin Paprzycki, Yuri Zachinyaev, 2021-03-30 This two volume set CCIS 1395 1396 constitutes the refereed proceedings of the Third International Conference on Futuristic Trends in Network and Communication Technologies FTNCT 2020 held in Taganrog Russia in October 2020 The 80 revised papers presented were carefully reviewed and selected from 291 submissions The prime aim of the conference is to invite researchers from different domains of network and communication technologies to a single platform to showcase their research ideas The selected papers are organized in topical sections on communication technologies security and privacy futuristic computing technologies network and computing technologies wireless networks and Internet of Things IoT

Methods and Applications of Sample Size Calculation and Recalculation in Clinical Trials Meinhard Kieser, 2020-11-19 This book provides an extensive overview of the principles and methods of sample size calculation and recalculation in clinical trials Appropriate calculation of the required sample size is crucial for the success of clinical trials At the same time a sample size that is too small or too large is problematic due to ethical scientific and economic reasons Therefore state of the art methods are required when planning clinical trials Part I describes a general framework for deriving sample size calculation procedures This enables an understanding of the common principles underlying the numerous methods presented in the following chapters Part II addresses the fixed sample size design where the required sample size is determined in the planning stage and is not

changed afterwards It covers sample size calculation methods for superiority non inferiority and equivalence trials as well as comparisons between two and more than two groups A wide range of further topics is discussed including sample size calculation for multiple comparisons safety assessment and multi regional trials There is often some uncertainty about the assumptions to be made when calculating the sample size upfront Part III presents methods that allow to modify the initially specified sample size based on new information that becomes available during the ongoing trial Blinded sample size recalculation procedures for internal pilot study designs are considered as well as methods for sample size reassessment in adaptive designs that use unblinded data from interim analyses The application is illustrated using numerous clinical trial examples and software code implementing the methods is provided The book offers theoretical background and practical advice for biostatisticians and clinicians from the pharmaceutical industry and academia who are involved in clinical trials Covering basic as well as more advanced and recently developed methods it is suitable for beginners experienced applied statisticians and practitioners To gain maximum benefit readers should be familiar with introductory statistics The content of this book has been successfully used for courses on the topic

Advanced Materials for the Restoration and Reconstruction of Dental Functions Jianxun Ding, Junchao Wei, Bing Han, Chider Chen, 2021-10-21 **Casein** Mamdouh El-Bakry, Bhavbhuti M. Mehta, 2024-06-24 Casein Structural Properties Uses Health Benefits and Nutraceutical Applications investigates casein properties uses and applications in food and non food products in addition to exploring its health benefits and uses in manufacturing such as in cheese products along with an in depth discussion on the future scope challenges and market trends of this protein Casein Structural Properties Uses Health Benefits and Nutraceutical Applications is an excellent reference for food scientists dairy researchers pharmaceutical scientists students and researchers studying related fields Provides comprehensive coverage of casein the main milk protein that has many applications and uses Includes suggested reading for further information Addresses a wide range of related topics including non food applications of casein

New Horizons in Health-Promoting Technologies: From Development to Rational Use Luciane Cruz Lopes, Cristiane De Cássia Bergamaschi, Silvio Barberato-Filho, Marcus Tolentino Silva, Brian Godman, 2020-10-08 This eBook is a collection of articles from a Frontiers Research Topic Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series they are collections of at least ten articles all centered on a particular subject With their unique mix of varied contributions from Original Research to Review Articles Frontiers Research Topics unify the most influential researchers the latest key findings and historical advances in a hot research area Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office frontiersin.org about contact **Proceedings of International Conference on ICT for Sustainable Development** Suresh Chandra Satapathy, Amit Joshi, Nilesh Modi, Nisarg Pathak, 2016-02-10 The two volumes of this book collect high quality peer reviewed research papers presented in the International Conference on ICT for Sustainable Development ICT4SD 2015 held at

Ahmedabad India during 3 4 July 2015 The book discusses all areas of Information and Communication Technologies and its applications in field for engineering and management The main focus of the volumes are on applications of ICT for Infrastructure e Governance and contemporary technologies advancements on Data Mining Security Computer Graphics etc The objective of this International Conference is to provide an opportunity for the researchers academicians industry persons and students to interact and exchange ideas experience and expertise in the current trend and strategies for Information and Communication Technologies

Sensor Technologies and Wireless Communications in Industry 5.0 Ramkumar K.R.,Bhupendra Singh,Lei Pan,Ankit Sharma,2025-10-29 The book explores the Internet of Things IoT landscape focusing on sensor technologies and wireless sensor communications It discusses challenges in establishing interconnected sensors network connectivity longevity and strategies for sustaining sensor networks in dynamic industrial environments The book also discusses issues like tracking objects geolocation and network coverage optimization and highlights the impact of artificial intelligence in sensor networks and the synergies between sensor technologies and wireless communications in Industry 5 0 Sensor Technologies and Wireless Communications in Industry 5 0 A Solution for Smart Manufacturing provides a thorough examination of the Internet of Things with a specific focus on sensor technologies and wireless sensor communications It delves into the latest advancements in sensor precision communication protocols and real world applications offering readers cutting edge insights into the rapidly evolving IoT landscape Recognizing the interdisciplinary nature of IoT this book serves as a bridge between technology engineering and data science It aligns itself with the Industry 5 0 paradigm and features contributions from top researchers in the field By anticipating emerging trends and future directions within the IoT field this book provides readers with valuable insights into the potential trajectories of sensor technologies and wireless communications Designed as a research tool and an educational resource for academic institutions this book is essential for researchers students and educators seeking up to date information on IoT technologies

Handbook of Research on Network-Enabled IoT Applications for Smart City Services Reddy, K. Hemant Kumar,Roy, Diptendu Sinha,Mishra, Tapas Kumar,Hussain, Mir Wajahat,2023-09-26 The rapid growth of IoT and its applications in smart cities pose significant challenges for academic scholars The increasing number of interconnected devices and the massive amounts of data they generate strain traditional networks leading to inefficiencies and security vulnerabilities Additionally the centralized control plane in Software Defined Networks SDN presents a single point of failure hindering network performance while IoT devices themselves are susceptible to attacks compromising user data and privacy To address these pressing issues Network Enabled IoT Applications for Smart City Services offers a compelling solution Edited by Dr K Hemant Kumar Reddy Dr Diptendu SinhaRoy and Tapas Mishra this book advocates leveraging SDN to handle high frequency data streams effectively It also proposes the integration of blockchain technology to enhance security and reliability in IoT applications offering a roadmap for scholars to improve network efficiency security and reliability in IoT and

smart city domains With their extensive expertise the authors provide academic scholars with a comprehensive and innovative resource that inspires further research and development in this evolving field enabling them to make significant contributions to the advancement of IoT and smart city technologies

Unveiling the Power of Verbal Art: An Psychological Sojourn through **When Is The Intake Of Zrp For 2015**

In a world inundated with monitors and the cacophony of fast interaction, the profound energy and psychological resonance of verbal artistry frequently disappear in to obscurity, eclipsed by the regular onslaught of sound and distractions.
