Religion and Everyday Life and Culture Vincent F. Biondo, Richard D. Hecht, 2010-03-25 This intriguing three volume set explores the ways in which religion is bound to the practice of daily life and how daily life is bound to religion In *Religion and Everyday Life and Culture* 36 international scholars describe the impact of religious practices around the world using rich examples drawn from personal observation Instead of repeating generalizations about what religion should mean these volumes examine how religions actually influence our public and private lives on the ground on a day to day basis Volume one introduces regional histories of the world s religions and discusses major ritual practices such as the Catholic Mass and the Islamic pilgrimage to Mecca Volume two examines themes that will help readers understand how religions interact with the practices of public life describing the ways religions influence government education criminal justice economy technology and the environment Volume three takes up themes that are central to how religions are realized in the practices of individuals In these essays readers meet a shaman healer in South Africa laugh with Buddhist monks sing with Bob Dylan cheer for Australian rugby and explore Chicana and Iranian art **The Last Heathen** Charles Montgomery, 2009-09-01 In 1892 the Bishop of Tasmania set sail for Melanesia with the intent of rescuing islanders from lives of fear black magic and cannibalism Over 100 years later his great grandson Charles Montgomery followed the bishop s route through the South Pacific seeking out the spirits and myths his missionary forebear had sought to destroy Montgomery explored remote shores where gospel and empire never took hold He rubbed shoulders with barefoot preachers witch doctors and gun toting rebels

only to discover that the pagan spirits were more tenacious than the missionaries had imagined Melanesians had stirred Jesus and Mary into an already spicy broth of ancestor worship ghosts shark gods and magic Through confrontations with a bizarre cast of characters the randy ethnographer the soft talking assassin the leper prophet the journey becomes a debate on the nature of magic myth and faith and a metaphor for the transforming power of story *The Last Heathen* marks the debut of an exciting young writer who charts his adventures with passion insight and grace

Cargo Cult Lamont Lindstrom, 2019-03-31 Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice radios and refrigerators ships that will never arrive Of all the stories spun about the island peoples of Melanesia tales of cargo cult are among the most fascinating The term cargo cult Lamont Lindstrom contends is one of anthropology's most successful conceptual offspring Like culture

worldview and ethnicity its usage has steadily proliferated migrating into popular culture where today it is used to describe an astonishing roll call of people Its history makes for lively and compelling reading The cargo cult story Lindstrom shows is more significant than it at first appears for it recapitulates in summary form three generations of anthropological theory and Pacific studies Although anthropologists enthusiasm for the notion of cargo cult has waned it now colors outsiders understanding of Melanesian culture and even Melanesians perceptions of themselves The repercussions for contemporary Islanders are significant leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist Of particular interest to this history is Lindstrom s argument that accounts of cargo cult are at heart tragedies of thwarted desire melancholy anticipation and crazy unrequited love He makes a convincing case that these stories expose powerful Western scenarios of desire itself giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar

The Revolution in Anthropology I.C. Jarvie,2013-10-28 Professor Jarvie examines the nature of the revolution in social anthropology in order to investigate its results Working within Karl Popper s radical view of the nature of science he argues that the subject is one of the oldest and most fundamental of all studies and suggests it can easily be traced back to Plato and Aristotle not merely as a matter of historical curiosity but as having fruitful results for the understanding of Malinowski and the revolution

Attenborough is a fine writer and storyteller. Irish Times. *An Academic Skating on Thin Ice* Peter Worsley, 2008-04-01

Peter Worsley's studies at Cambridge were interrupted by war service as a communist officer in the colonial forces in Africa and India, and it was here that he developed a keen interest in anthropology. He worked in mass education in Tanganyika and then studied with Max Gluckman at Manchester University. Banned from re-entering Africa, Worsley went to Australia where he was banned once more, this time from New Guinea, yet he did succeed in completing field research for his PhD on an Australian Aboriginal tribe. His subsequent book on Cargo cults in Melanesia is now regarded as a classic, but his left-wing politics ensured that he could not get a job in anthropology, so he switched to sociology on his return to Manchester.
