Poetics of Alterity Soyoung Lee, 2022-11-14
POETICS OF ALTERITY Education today is commonly oriented towards citizenship and skills for life with aims of happiness and wellbeing But this benign image harbours surreptitious forms of control which ultimately undermine the goods it professes to safeguard and stifle education s very purpose What release can there be from these constrictions Release is to be found as Soyoung Lee eloquently shows by attending to elements of experience that seem to escape our grip from challenging aspects of our moral lives to struggles over practicalities of curriculum content The more robust more outward turning orientation she demonstrates emphasises engagement with subject matter with problems and forms of narrative that defy pre determined formulations and categories This requires turning towards objects worthy of attention and towards people and their claims on us The arts and the humanities have special importance as spaces where alterity presents and expresses itself Lee s dialogue with Heidegger Levinas Derrida and Celan shows how acknowledgement of the other must condition not only practices of teaching and learning but practicalities of our social and political lives Attending to anxieties inherent in teaching and learning in school and the wider world the book s powerful rationale for the curriculum provides nothing less than a new grounding for the humanities

Researching Early Childhood Literacy in the Classroom Lucy Henning, 2019-11-05 This volume demonstrates how the ethnographic approach to research demanded by a Literacy as Social Practice perspective can generate fresh insights into what happens when young children engage with schooled literacy tasks Researching Early Childhood Literacy in the Classroom argues that the lived experience of young children encountering formal schooled literacy curricula should be the foremost consideration in educational reforms intended to improve rates of literacy acquisition in schools To make this argument the author suspends traditional concerns with learning and progress to concentrate on practice and meaning in a careful analysis of key classroom incidents The author concludes that such insights suggest a need for re considering the assumptions upon which educational policy rests This book will be of great interest to graduate and postgraduate students researchers academics and libraries in the fields of Literacy Studies Teacher Education Education Policy and Applied Linguistics
