Expressing the Same by the Different Igor Dreer, 2007 This volume offers an alternative sign oriented analysis of the distribution of the French Indicative and Subjunctive It rejects both government and functions attributed to both moods and shows that the distribution of the Indicative and the Subjunctive is motivated by their invariant meanings The volume illustrates the close interaction between the Indicative and the Subjunctive as linguistic signs and signs of other grammatical systems contextually associated with the invariant meanings of both moods Special consideration is given to the use of the Indicative and the Subjunctive in texts of different styles and genres This volume also deals with the diachronic disfavoring of the Subjunctive and especially of the Imperfect Subjunctive that occurred from Old French to Contemporary French It is argued that this disfavoring was motivated by the narrowing of the invariant meaning of the Contemporary French Subjunctive All hypotheses are supported by contextualized examples and frequency counts

Excerpta Medica, 1968 Computational Models of Argument Francesco Santini, Carlo Taticchi, 2020-09-15 The investigation of computational models of argument is a rich and fascinating interdisciplinary research field with two ultimate aims the theoretical goal of understanding argumentation as a cognitive phenomenon by modeling it in computer programs and the practical goal of supporting the development of computer based systems able to

engage in argumentation related activities with human users or among themselves The biennial International Conferences on Computational Models of Argument COMMA provide a dedicated forum for the presentation and discussion of the latest advancements in the field and cover both basic research and innovative applications This book presents the proceedings of COMMA 2020 Due to the Covid 19 pandemic COMMA 2020 was held as an online event on the originally scheduled dates of 8-11 September 2020 organised by the University of Perugia Italy The book includes 28 full papers and 13 short papers selected from a total of 78 submissions the abstracts of 3 invited talks and 13 demonstration abstracts The interdisciplinary nature of the field is reflected and contributions cover both theory and practice Theoretical contributions include new formal models the study of formal or computational properties of models designs for implemented systems and experimental research Practical papers include applications to medicine law and criminal investigation chatbots and online product reviews The argument mining trend from previous COMMA s is continued while an emerging trend this year is the use of argumentation for explainable AI The book provided an overview of the latest work on computational models of argument and will be of interest to all those working in the field *American Engineer, Car Builder and Railroad Journal* ,1886

Discourse Processing Manfred Stede,2022-06-01 Discourse Processing here is framed as marking up a text with structural descriptions on several levels which can serve to support many language processing or text mining tasks We first explore some ways of assigning structure on the document level the logical document structure as determined by the layout of the text its genre specific content structure and its breakdown into topical segments Then the focus moves to phenomena of local coherence We introduce the problem of coreference and look at methods for building chains of coreferring entities in the text Next the notion of coherence relation is introduced as the second important factor of local coherence We study the role of connectives and other means of signaling such relations in text and then return to the level of larger textual units where tree or graph structures can be ascribed by recursively assigning coherence relations Taken together these descriptions can inform text summarization information extraction discourse aware sentiment analysis question answering and the like Table of Contents Introduction Large Discourse Units and Topics Coreference Resolution Small Discourse Units and Coherence Relations Summary Text Structure on Multiple Interacting Levels *Fort Lauderdale Hollywood*

International Airport ,2008 **Silent Film and the Triumph of the American Myth** Paula Marantz Cohen,2001-05-03 Silent Film and the Triumph of the American Myth is a broad cultural study that connects the rise of film to the rise of America as a cultural center and world power in the twentieth century Cohen argues that through the medium of silent film America was able to sever its literary and linguistic ties to Europe assert its cultural independence and forge a unique form of cultural expression Silent films drew on elements developed in popular forms of representation like photography landscape panoramas and vaudeville performance to create a medium that more accurately represented the American experience *The Volta Review* ,1917 Selected Writings on Indian Linguistics and Philology Franciscus Bernardus
