

Programming System Features

The Learn Function stores feature data into the unit's memory. It is possible to restore and change most of the feature settings using the Control button.

1. Operate in learn mode.
2. Turn the system on, then off.
3. Select a feature. Press and hold the Control button. The number of times above indicates the main function. 1 press indicates main 1, 2 presses indicate 2 and 3 presses indicate 3.
4. When the desired main status has been selected, release the Control button.
5. Select a feature. Press and release the Control button. The number of times corresponding to the feature may need to change. Press again and hold and wait for the status to change.
6. Repeat the feature. While holding the Control button, you can program the feature using the remote control.

The system will only have memory 1 or system 1 with 1 or system 2. The system will store that one system 1 or system 2 in the memory in ascending order with 1 or system 2 in the descending order.

Main Function 1 (Control) mode the feature to the factory default.

Learn Feature is programmed

- Other features can be programmed within the same time.
- Feature status can be deleted.
- The learn status can be reset if programming is complete.

Learn status feature in the same time

1. Press and release the Control button. The number of times corresponding to the feature you just programmed is the feature you want to program.
2. Press again the Control button once more and hold it.

To select another main

1. Press and hold the Control button.
2. After 3 seconds, the unit will return to the main status and the status display will display which main has been selected.

The learn mode ends if any of the following occurs

- The system door is closed.
- The system is opened ON.
- There is no signal for 30 seconds.
- The transmission is powered for every time.
