Bill Shander

The Empathy Hat:

The Empathy Hat Jennifer Cole, Janet Keefe, 2014-12-08 It's a presidential election year and something very peculiar is going on. With the help of a supernatural hat, people start seeing each other's views in a deeper way. Starting out in Jamaica at a lively hat maker's shop, a migrant worker buys a special hat to protect him from the hot sun while he works in a New England apple orchard. Once he arrives in the US, his new hat takes on a personality all its own. This hat finds a way to whimsically make its rounds to a diverse group of characters. Find out what happens when the hat is placed on the head of the newly elected president. When all the thoughts and feelings of each person who has worn the hat become known and felt by the new leader of the USA. Somewhat prophetic considering the original copyright is from 2007 **Adaptive**

Learn to uncover what your managers' clients, customers, and other stakeholders need before doing what they ask. People don't know what they need. The wants we communicate to others are shaped by our subconscious and the familiar and limited by what we think is possible. But they don't always reflect our actual needs. In *Stakeholder Whispering: Uncover What People Need Before Doing What They Ask*, author Bill Shander demonstrates how to get from your stakeholders' order, what they're asking for, to what they really need. You'll learn how to uncover the needs and desires of your clients, colleagues, bosses, customers, and other stakeholders based on what they ask for and how they ask for it and how to deliver products and services that meet those needs. Inside the book: Help your stakeholders accomplish their goals and make the best decisions possible by helping them see what they really need. Shift from executing on tactics driven by others' commands to strategic action driven by underlying needs. Transform your organization from one filled with order takers into one where people work collaboratively to meet goal-oriented requirements. Perfect for managers, executives, and other business leaders, *Stakeholder Whispering* will also earn a place on the bookshelves of entrepreneurs, founders, designers, product and project managers, UX experts, data and business analysts, and anyone else hoping to better meet the expectations of their coworkers, managers, clients, and customers. *The*

The Hat That Killed a Billion Birds Arthur G. Sharp, 2024-02-07 During the late 1800s and early 1900s it was common practice for milliners to decorate women's hats with birds feathers and plumes and sometimes with the birds themselves As many as 300 million birds per year were killed for this fashionable enterprise causing the extinction of some entire species and the endangerment of others Lawmakers and bird aficionados were slow to react to the effects of this practice which went on almost unabated for a quarter of a century Then noted naturalists like George Bird Grinnell William T Hornaday and President Theodore Roosevelt who recognized the economic benefits birds provided banded together to pass meaningful legislation to protect them and to curb the production of murderous millinery This book explores the troubled history of millinery and its complicated relationship to birds and conservation It explores why it took so long for the slaughter to end and how the efforts of individuals and groups brought about change

The Kind Leader Karyn Ross, 2021-09-09 Kindness and leadership aren't often synonymous Ask someone to describe good leadership to you and you will hear many adjectives used authentic bold challenging charismatic decisive empowering fearless goal oriented humble inspiring original passionate role model strategic and transparent to name a few And though there are many more that come to mind kindness isn't one of them And here's the problem with that Leaders lead And the way a leader leads how they do what they do influences those they lead From the president of the country to the president of a company from middle managers right down to front line supervisors what a leader models how they think speak and act influences the people they lead Leaders who think speak and act unkindly give legitimacy and permission to those they lead to think speak and act in exactly the same unkind ways Today in a world where a leader's words and actions travel quickly through social media channels such as Twitter their influence unkind or kind is amplified through repeated views and sharing In an increasingly fragmented polarized and divided world we need leaders who will bring people together not divide them Leaders who value and model cooperation and collaboration over competition And who model ways to think kindly speak kindly and act kindly We need kindness to become synonymous with good leadership So that when someone is asked to describe the traits of a good leader kindness will be the first word that comes to mind Essentially the purpose of this book is to teach leaders how to lead with kindness so they can influence the people they lead to create kinder workplaces organizations and the world Each chapter contains a mixture of theory case studies and reflections from leaders and the people they influence As well the book follows the fictional stories of Kay La Janson and Kevin Landrell as they become leaders in a failing organization that is ultimately turned around through kind leadership Between chapters there are a series of practical exercises based on concepts presented in the previous chapter with space to record outcomes and reflections on the practice process This book gives you a deep theoretical understanding of the importance of leading with kindness and also provides practical exercises for you to use to turn theory into practice Because change means doing things differently and because we only really learn by doing to create kinder organizations kinder communities and a kinder world leaders must be able to begin practicing kindness right away By the time you finish the book you will feel confident in your ability to lead with kindness and also to address organizational problems at work at home and in the community with kindness
