Deep Value Investing (2nd edition) Jeroen Bos, 2018-01-15 *The 52-Week Low Formula* Luke L. Wiley, 2014-04-07 A new but timeless strategy and mindset that should greatly help investors lower downside risk while achieving market outperformance In *The 52 Week Low Formula* A Contrarian Strategy that Lowers Risk Beats the Market and Overcomes Human Emotion wealth manager Luke L Wiley CFP examines the principles behind selecting the outstanding companies and great investment opportunities that are being overlooked Along the way Wiley offers a melding of the strategies used by such investment giants as Warren Buffett Howard Marks Michael Porter Seth Klarman and Pat Dorsey His proven formula helps investors get the upper hand by identifying solid companies that are poised for growth but have fallen out of the spotlight Shows you how to investigate companies and identify opportunities Includes detailed discussions of competitive advantage purchase value return on invested capital and debt levels Presents several case studies to examine companies that have overcome obstacles by trading around their 52 week lows The 52 Week Low Formula is a must read for investors and financial advisors who want to break through conventional strategies and avoid common mistakes

**The Entrepreneurial Investor** Paul Orfalea, Lance Helfert, Atticus Lowe, Dean Zatkowsky, 2008-03-07 The *Entrepreneurial Investor* will inspire you to treat investing like a business and to think of yourself as an owner Through solid examples and a light narrative Paul Orfalea skillfully explores the essence of the entrepreneurial investor which includes balancing the art and science of this discipline and viewing investing itself as a business Along the way he also examines how the elements of focus opportunism and involvement can improve your overall investment results

*The Conscious Investor* John Price, 2010-10-26 An intriguing look at the full range of value methods brought together for the first time The biggest block to success in the stock market is unconscious investing or following the crowd without asking the right questions such as What is it really worth Even more fundamental is What rate of return can I confidently expect to get

Without having the methods to answer these questions is like trying to sail a boat without a rudder The Conscious Investor covers each of the main methods used to calculate value or return in the stock market along with descriptions of how and when to use them as well as their strengths and weaknesses Interspersed throughout the methods are the timeless investment principles of Benjamin Graham and Warren Buffett The book Includes balance sheet methods dividend discount methods discounted cash flow methods price ratio methods and many others Explains the significance of viewing real value as a combination of a stock s price or market value and its intrinsic value Comes with free access to key functions in the author s Conscious Investor software The Conscious Investor is indispensable reading for everyone with an interest in investing in the stock market from novices to experienced professionals Using this book as your guide you ll quickly discover what it takes to be a conscious investor and gain more confidence in knowing what and when to buy when to hold and when to sell

**Creating Strategic Value** Joseph Calandro,2020-09-08 The principles of value investing have resonated with savvy practitioners in the world of finance for a long time In Creating Strategic Value Joseph Calandro Jr explores how the core ideas and methods of value investing can be profitably applied to corporate strategy and management Calandro builds from an analysis of traditional value investing concepts to their strategic applications He surveys value investing s past present and future drawing on influential texts from Graham and Dodd s time tested works to more recent studies to reveal potent managerial lessons He explains the theoretical aspects of value investing consistent approaches to corporate strategy and management and details how they can be successfully employed through practical case studies that demonstrate value realization in action Calandro analyzes the applicability of key ideas such as the margin of safety principle to corporate strategy in a wide range of areas beyond stocks and bonds He highlights the importance of an information advantage knowing something that a firm s competitors either do not know or choose to ignore and explains how corporate managers can apply this key value investing differentiator Offering expert insight into the use of time tested value investing principles in new fields Creating Strategic Value is an important book for corporate strategy and management practitioners at all levels as well as for students and researchers

*Introduction to Corporate Finance* Laurence Booth,W. Sean Cleary,Ian Rakita,2020-02-18 The fifth edition of Introduction to Corporate Finance is a student friendly and engaging course that provides the most thorough accessible accurate and current coverage of the theory and application of corporate finance within a uniquely Canadian context Introduction to Corporate Finance will provide students with the skills they need to succeed not only in the course but in their future careers

[The Education of a Value Investor](#) Guy Spier,2014-09-09 Guy Spier s winning approach to value investing explores the perils of an elite education and how to create a value investing portfolio [Value](#)

Investing James Montier, 2010-02-09 A must read for all students of the financial markets clear insight and spirited good humor backed up with cold hard facts Seth Klarman President The Baupost Group LLC The seductive elegance of classical finance theory is powerful yet value investing requires that we reject both the precepts of modern portfolio theory MPT and pretty much all of its tools and techniques In this important new book highly respected and controversial value investor and behavioral analyst James Montier explains how value investing is the only tried and tested method of delivering sustainable long term returns He shows you why everything you learnt at business school is wrong how to think properly about valuation and risk how to avoid the dangers of growth investing how to be a contrarian how to short stocks how to avoid value traps and how to hedge ignorance using cheap insurance Value Investing provides the tools to start thinking in a different fashion about the way in which you invest introducing ways of overriding the emotional distractions that bedevil the pursuit of a value approach and ultimately thinking and acting differently from the herd A leading light in value investing and behavioral finance shows you what's wrong with standard investment thinking and offers important insight into how to improve your process Michael J Mauboussin Chief Investment Strategist at Legg Mason Capital Management and author of Think Twice Harnessing the Power of Counterintuition *The MAGNET Method of Investing* Jordan L. Kimmel, Jeffrey A.

Hirsch, 2009-08-13 Praise for The Magnet Method of Investing Rather than encouraging the scatter shot approach of broad diversification Jordan focuses on the rifle shot Magnet method of identifying a limited number of quality stocks to improve your chances of beating the market Sam Stovall Chief Investment Strategist Standard Poor's Equity Research Jordan Kimmel is one of the brightest market observers out there and he is certainly a rising star that will be an important person to follow marketwise for many years Michael Burke Coeditor Investors Intelligence Inc Jordan Kimmel's The Magnet Method of Investing is an amazing detailed and intuitive book I especially enjoyed Jordan's insights into diversification the inefficient market and identifying stocks that are in their sweet spot Jordan's writing style is also very straightforward and refreshing He succeeds in taking complicated subjects and explaining them in an insightful way This is simply an incredible book that is a must read for both beginning and serious investors Louis G Navellier Chairman and founder Navellier Associates Inc The Magnet Method of Investing examines investing from a different perspective than many investors often see offering a unique alternative to diversification Jordan Kimmel has analyzed the methods of the best investors through time and introduces his robust stock selection process David M Darst CFA Managing Director and Chief Investment Strategist Morgan Stanley Global Wealth Management Group We welcome Jordan's book as a valuable perspective on investing The Wall Street Transcript applauds money managers like Jordan who explain their philosophies clearly support them with research and back them up with performance data This is a great addition to any investing reading list Andrew Pickup Publisher and CEO The Wall Street Transcript The Magnet Method of Investing takes on the important issue of diversification which has been oversold to Main Street This is yet another example of the need to go against conventional thinking if you want to achieve superior

results Stan Weinstein Editor and Publisher Global Trend Alert      **An Asian Direct and Indirect Real Estate Investment Analysis** Kim Hin David HO, 2021-05-04 This book is dedicated to real estate scholastic work in advancing the greater understanding of real estate investment analysis This is because there has been limited research in bringing out clearly the uncertainty or risk which is quantifiable uncertainty in real estate market analysis Even real estate market research which is carried out as an industry practice among private real estate researches is no exception Another reason is that it has been widely accepted that while the financial revolution has substantially changed many sectors of the financial industry it has made little impact on real estate development and investment practice as well as scholastic work Furthermore while it is readily acknowledged that despite its huge share in the world health real estate investment discipline and research is on the whole still a poorly researched subject area As a result the industry tends to be dominated by traditional real estate analysts with little understanding of real estate market uncertainty and capital markets These commentators are widely regarded to spend too much time worrying about local space supply and demand conditions while totally losing sight of the everchanging real estate market and capital market conditions The theme of this book is real estate investment analysis of direct and indirect real which in turn can be appropriately managed under economic theory and the theoretical conceptions of real estate finance provided the uncertainty is quantifiable The book deploys case studies involving Singapore and Asia This Black over White background viii framework enables real estate market analysis to attempt what defines the Asian direct and indirect real estate sectors what is being measured how it behaves in terms of price and non price factors how it is structured and how it effectively achieves the objectives of sustainable total returns and manageable real estate market uncertainty Managing real estate market uncertainty optimally is achieved at the portfolio level through real estate asset allocation This is important because the real estate portfolio is able to virtually eliminate the unique i e specific uncertainties among the various Asian real estate sectors thus retaining within the portfolio only the systemic i e market wide uncertainty Apart from real estate asset allocation the alternative and modern approach to risk management at the portfolio level is the value at risk VaR approach Another modern and important alternative to coping with uncertainty is real option analysis and pricing that help to better define real estate market uncertainty in extent and time Real option analysis and pricing also represent uncertainty via a decision tree and the risk neutral probability conception in order to comprehend how uncertainty impacts on the value of real estate investment decisions The pricing of uncertainty is based on the risk free hedge security conception These are best examined at the micro level of the investment in a real estate development opportunity on vacant land Nevertheless the real estate sectors in Singapore and Asia offer promising prospects since the Asian currency crisis of 1997 It is now timely to take stock and make an assessment of how the sectors would pan out for the future Ill into at least rest the next century I are very pleased to present our thinking and research in international real estate with particular emphasis on Asia The region s vast potential for real estate is itself a large incentive for international real estate research

and education that has inspired me to document the significant work I have done over the years Black over White background ix I wish all readers a pleasurable reading of this book and I thank you sincerely for your support without which the publication of this book would be made all the more difficult Dr HO Kim Hin David Honorary Professor University of Hertfordshire UK International Real Estate Public Policy March 2021      **Accounting for Value** Stephen

Penman,2010-12-30 Accounting for Value teaches investors and analysts how to handle accounting in evaluating equity investments The book s novel approach shows that valuation and accounting are much the same valuation is actually a matter of accounting for value Laying aside many of the tools of modern finance the cost of capital the CAPM and discounted cash flow analysis Stephen Penman returns to the common sense principles that have long guided fundamental investing price is what you pay but value is what you get the risk in investing is the risk of paying too much anchor on what you know rather than speculation and beware of paying too much for speculative growth Penman puts these ideas in touch with the quantification supplied by accounting producing practical tools for the intelligent investor Accounting for value provides protection from paying too much for a stock and clues the investor in to the likely return from buying growth Strikingly the analysis finesses the need to calculate a cost of capital which often frustrates the application of modern valuation techniques Accounting for value recasts value versus growth investing and explains such curiosities as why earnings to price and book to price ratios predict stock returns By the end of the book Penman has the intelligent investor thinking like an intelligent accountant better equipped to handle the bubbles and crashes of our time For accounting regulators Penman also prescribes a formula for intelligent accounting reform engaging with such controversial issues as fair value accounting      **Pitch the**
