# 3 TIMES BETTER THAN YOUR AVERAGE VACUUM CLEANER

## Total cleaning control for your home...

Forget everything you've heard about vacuum cleaners, carpets and carpet care. VAX is something different – and definitely superior.

In the days before fitted carpets, you would have taken your carpets outside at least once a year, beaten them thoroughly – and been amazed at the huge dust clouds that billowed out. Now they are fitted you can't do that. Now most houses are centrally heated so that dust mites and house mites that died off when the fires went out live and flourish on this dust. How many people do you know that suffer from allergies?
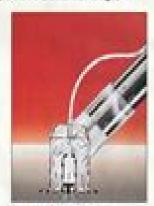

## Why a normal vacuum cleaner just isn't enough.

These days, most people just vacuum their carpets regularly. But if you think that vacuuming alone gets all the dust out, you're wrong.

It takes away only the top layer of dirt. The lower layer – the layer that really does the damage – stays put. And as the grit and dirt gets trodden in deeper and deeper, it cuts at the pile, making it dull and loosening the fibres.

So how do you get your carpets really clean?

You could use a carpet shampooer. But all it does is to scrub soap into the pile, without taking it back out. After a while, soap deposits build up and actually attract dirt. So the carpet gets even more sticky, dirty and unhygienic and many stains reappear after a few days.

You could get a contractor to 'steam' clean them at how ever. There's no doubt they do a good job, but think of the cost. For the cost of hiring one of these machines a few times, you could buy a VAX.

The VAX Fibre-Flow ® washing system circulates warm water and rich liquid cleaning solution through the pile of your carpet, breaking down ground in dirt, grit and grease gently lifting it out. Your carpet is clean and ready to walk on in a short time.

## Why a VAX is three times better

**Vacuum power.** VAX machines have up to 1200 watts of vacuuming power with a unique 4-filter system that retains 99.9% of the dirt in the machine.

**VAXing.** Your VAX can wash (VAX) your carpets and upholstery with a special cleaning solution, removing the greasy deposits, dirt and ground in grit. A VAX can also deal with dustmite problems, with VAX's specially formulated Allerite cleaning solution, giving you up to 90 days' protection against allergen bearing dust particles.

**Problem solving.** Your VAX can suck up spills and floods at the rate of one gallon in 6 seconds. It can clear blocked sinks and suck up broken glass and crockery without damaging your machine.

## What makes a VAX so special?

**Power.** Your VAX gives you up to 1200 watts of power that is controllable to suit different tasks. This is backed up by a unique 4-filter system that retains 99.9% of dirt in the machine; normal vacuum cleaners may blow the dust back around the room.

**Care.** Deep washing your carpets cares for them too, and doesn't shrink or overwet them. In fact your carpets will be dry enough to walk on in a short time. The unique Fibre-Flow® washing action draws the cleaning solution through the carpet fibre dissolving the grease and stains and releasing all the ground in dirt and grit from the base of the fibres for the powerful suction to suck them clean away. The fibres of your carpets are washed without wetting the back of the carpet and VAX Carpet and Upholstery Cleaner has a built-in conditioner, too.

**Control.** A VAX comes with six separate tools for total cleaning control throughout your home.

## Optional VAX Accessories.

The VAX Automop is a cleaning head made specially for VAX machines that leaves your hardfloors brilliantly clean and safe to walk on right away.

The VAX PowerPlus is a turbine-driven carpet cleaning head that makes vacuuming almost effortless.

To you see, a VAX really does give you total cleaning control over your home environment.

Above left carpet after vacuuming and, left the same carpet after VAXing.
