Engine oil level

Before you start

- ✓ Make sure that your car is on level ground.
- ✓ Check the oil level before the car is driven, or at least 5 minutes after the engine has been switched off.

If the oil is checked immediately after driving the vehicle, some of the oil will remain in the upper engine components, resulting in an inaccurate reading on the dipstick!

1 The dipstick is located on the front of the engine (see "Underbonnet Check Points" on pages 0•10 and 0•11 for exact location). Withdraw the dipstick.

2 Using a clean rag or paper towel remove all oil from the dipstick. Insert the clean dipstick into the tube as far as it will go, then withdraw it again.

Locative Alternation Seizi Iwata, 2008-06-09 The aim of the present volume is two fold to give a coherent account of the locative alternation in English and to develop a constructional theory that overcomes a number of problems in earlier constructional accounts The lexical constructional account proposed here is characterized by two main features On the one hand it emphasizes the need for a detailed examination of verb meanings On the other it introduces lower level constructions such as verb class specific constructions and verb specific constructions and makes full use of these lower level constructions in accounting for alternation phenomena Rather than being a completely new version of construction grammar the proposed lexical constructional account is an automatic consequence of the basic tenet of constructional approaches as being usage based *InfoWorld*, 1985-12-02 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects
