Advances in Medical Education A.J.J.A. Scherpbier,Cees P.M. van der Vleuten,J.J. Rethans,A.F.W. van der Steeg,2012-12-06 About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht We received 525 abstracts for the conference divided in thematic poster sessions and platform presentations Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences During and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression Despite the large number of papers the editors have attempted to review and edit the papers as care fully as possible Occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers Although we felt that our editorial task was not quite finished we nevertheless decided to include these papers We thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education The editors want to thank Jocelyn Flippo Berger whose expertise with desk top publishing and perseverance was a great help

The SAGE Guide to Educational Leadership and Management Fenwick W. English,2015-01-29 The SAGE Guide

to Educational Leadership and Management allows readers to gain knowledge of educational management in practice while providing insights into challenges facing educational leaders and the strategies skills and techniques needed to enhance administrative performance This guide emphasizes the important skills that effective leaders must develop and refine including communication developing teams coaching and motivating and managing time and priorities While being brief simply written and a highly practical overview for individuals who are new to this field this reference guide will combine practice and research indicate current issues and directions and choices that need to be made Features Benefits 30 brief signed chapters are organized in 10 thematic parts in one volume available in a choice of electronic or print formats designed to enable quick access to basic information Selective boxes enrich and support the narrative chapters with case examples of effective leadership in action Chapters conclude with bibliographic endnotes and references to further readings to guide students to more in depth presentations in other published sources Back matter includes an annotated listing of organizations associations and journals focused on educational leadership and administration and a detailed index This reference guide will serve as a vital source of knowledge to any students pursuing an education degree as well as for individuals interested in the subject matter that do not have a strong foundation of the topic

Performing Music Research Aaron Williamon, Jane Ginsborg, Rosie Perkins, George Waddell, 2021-03-11 What is it that drives people to undertake music research Such interest frequently grows from on the ground experiences as learners performers facilitators composers arts administrators and educators It can emerge for example from music teachers trying out new teaching methods performers wishing to know more about how to improvise effectively educators pursuing the most effective ways to structure music curricula musicians aiming to explain why their music enhances wellbeing among different groups of people and orchestral managers seeking to promote and protect the health of their players At the heart of all of these enquiries lies a question of some sort and it is these research questions that determine the direction of the research to be undertaken Performing Music Research is a comprehensive guide to planning conducting analyzing and communicating research in music performance The book examines the approaches and strategies that underpin research in music education psychology and performance science It reviews the knowledge and skills needed to critique existing studies in these fields and to design and carry out new investigations Perspectives on qualitative quantitative and multistrategy methodologies are highlighted across the book in ways that help aspiring researchers bring precision to their research questions select methods that are appropriate for addressing their questions and apply those methods systematically and rigorously Each chapter contains a study guide comprising a chapter summary a list of keywords and suggestions for further discussion and the book concludes with a resources section including a glossary and supplementary material to support advanced statistical analysis The book's companion website provides information designed to facilitate access to original research and to test knowledge and understanding
