Written by experienced EU Court and Commission insiders it gives a detailed and practice oriented overview of the whole spectrum of litigation procedure before the EU judiciary It also presents the entire system of judicial avenues that enable litigants to enforce their rights under EU law against European institutions Member States or private parties The book is thus a comprehensive reference tool for practising lawyers and helps them present their cases effectively while at the same time offering valuable guidance to national judges dealing with cases raising points of EU law Moreover it provides insights into the reasoning process of the EU Courts which will be of interest to scholars in the field and is built around a structure that facilitates its use as a teaching material     **InfoWorld** ,1982-04-05 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects     **PC Mag**
