Research Anthology on Preparing School Administrators to Lead Quality Education Programs Management Association, Information Resources, 2020-07-24 The delivery of quality education to students relies heavily on the actions of an institution's administrative staff Effective leadership strategies allow for the continued progress of modern educational initiatives It is crucial to investigate how effective administrators lead their organizations in challenging and difficult times and promote the accomplishments of their organization Research Anthology on Preparing School Administrators to Lead Quality Education Programs is a vital reference source that offers theoretical and pedagogical research concerning the management of educational systems on both the national and international scale It also explores academic administration as well as administrative effectiveness in achieving organizational goals Highlighting a range of topics such as strategic planning human resources and school culture this multi volume book is ideally designed for educators administrators principals superintendents board members researchers academicians policymakers and students

The Status of Student Involvement in University Governance in Kenya Mulinge, Munyae M., Arasa, Josephine N., 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including

students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya

Technology and Oligopoly Capitalism Luis Suarez-Villa, 2023-04-14 Technology and Oligopoly Capitalism is a major contribution to our understanding of how technology oligopolies are shaping America's social economic and political reality Technology oligopolies are the most powerful socioeconomic entities in America From cradle to grave the decisions they make affect the most intimate aspects of our lives how we work what we eat our health how we communicate what we know and believe whom we elect and how we relate to one another and to nature Their power over markets trade regulation and most every aspect of our governance is more intrusive and farther reaching than ever They benefit from tax breaks government guarantees and bailouts that we must pay for and have no control over Their accumulation of capital creates immense wealth for a minuscule elite deepening disparities while politics and governance become ever more subservient to their power They determine our skills and transform employment through the tools and services they create as no other organizations can They produce a vast array of goods and services with labor marketing and research that are more intrusively controlled than ever as workplace rights and job security are curtailed or disappear Our consumption of their products and their capacity to promote wants is deep and far reaching while the waste they generate raises concerns about the survival of life on our planet And their links to geopolitics and the martial domain are stronger than ever as they influence how warfare is waged and who will be vanquished Technology and Oligopoly Capitalism's critical multidisciplinary perspective provides a systemic vision of how oligopolistic power shapes these forces and phenomena An inclusive approach spans the spectrum of technology oligopolies and the ways in which they deploy their power Numerous previously unpublished ideas expand the repertory of established work on the topics covered advancing explanatory quality to elucidate how and why technology oligopolies operate as they do the dysfunctions that accompany their power and their effects on society and nature This book has no peers in the literature in its scope the unprecedented amount and diversity of documentation the breadth of concepts and the vast number of examples it provides Its premises deserve to be taken into account by every student researcher policymaker and author interested in the socioeconomic and political dimensions of technology in America

Global Advances in Selenium Research from Theory to Application Gary S.

Banuelos,Zhi-Qing Lin,Milton Ferreira Moraes,Luiz Roberto Guimarães Guilherme,Andre Rodrigues dos Reis,2015-10-05 The 4th International Conference on Selenium in the Environment and Human Health was held 18 21 October 2015 in SPaulo Brazil This conference provided an effective scientific communication platform for researchers in different disciplines worldwide to elucidate and better understand those complex roles of Se as both essential nutrient and enviro **Current Advances in Contraceptive Use, Technology, and Promotion** Allen Kabagenyi ,Ronald Anguzu,2025-10-10 There is a high unmet need for effective contraception in Sub Saharan Africa with low rates of contraceptive use While this situation has persisted over the last three decades improvements in contraceptive utilization rates would lead to many high fertility countries harnessing the demographic dividend Promotion of modern contraceptive use has resulted in long term returns on investment such as fertility decline increases in girl child education employment and women empowerment household level socio economic improvement as well as averted unintended pregnancies maternal morbidity and mortality With the advances in contraceptive technology the global agenda of FP2030 SDGs 2030 the UNFPA strategy of zero unmet need and the disruption caused by the COVID 19 pandemic this collection will provide research on strategies for increasing contraceptive use creating a communication platform to share global research and best practices to advance contraception and family planning This Research Topic will highlight recent novel research on contraceptive provision and utilization from a global community of practitioners policy makers and users of family planning bringing together diverse perspectives and experiences in research practice demand creation and advocacy for use by family planning programs policymakers academia healthcare providers and other stakeholders This Research Topic welcomes high impact articles from experienced and early career researchers in the field of family planning and contraception Authors are welcome to submit original research articles based on primary or secondary data scoping reviews systematic reviews case or cohort studies and program based research Topical areas may include but are not limited to Advances in novel contraceptive technology Global impact of COVID 19 on contraceptive use and family planning Preferences safety and use of long acting and reversible contraception Behavioral economics behavior change and demand generation for contraceptives Applying theories of health behavior implementation science and predictive modeling Social cultural determinants of contraceptive use method mix and male involvement Empowerment gender equality social norms and inter personal relations including the role of intimate partner violence Integration of family planning into development and health programs Strategies gaps and missed opportunities for achieving global strategies on increased family planning Handbook of Water Harvesting and Conservation Saeid Eslamian,Faezeh Eslamian,2021-03-01 Water harvesting is gaining more and more recognition as a sustainable and resilient water supply options It is economically viable socially compatible and environmentally friendly Water harvesting has proven to be a robust solution to overcome or reduce water shortages all over the world It is important to understand how to apply this practice in a sustainable and effective way to make full use of its potential in a world increasingly threatened by water scarcity The

Handbook of Water Harvesting and Conservation Basic Concepts and Fundamentals is the most comprehensive up to date and applied handbook on water harvesting and conservation yet published The book s 30 chapters written by 84 outstanding international experts from approximately 20 selected countries faced by drought explore critique and develop concepts and systems for water harvesting The editors bring together many perspectives into a synthesis that is both academically based and practical in its potential applications The Handbook of Water Harvesting and Conservation Basic Concepts and Fundamentals is an important tool for education research and technical works in the areas of soil water and watershed management and is highly useful for drought strategy planning flood management and developing techniques to adapt to climate change in urban agricultural forest and rangeland areas *New Challenges and Future Perspectives in Nutrition and Sustainable Diets in Africa* Hettie Carina Schönfeldt, Gloria Essilfie, Yunnyun Gong, 2024-05-06 Africa is confronted with the triple burden of malnutrition it is also faced with the triple challenges of poverty inequality and unemployment In many African countries large proportions of the population rely on agriculture not only for their food but also for their livelihoods A transformed agricultural and food system is thus a necessary condition for addressing this double triple challenge Additionally post harvest and food waste and losses reduce the availability of sufficient quantities of safe edible and preferable foods At least one third of food produced at farm level is lost due to inappropriate storage infrastructure and agro processing technologies in developing countries and one third of food purchased is wasted at household and retail level

HIV/AIDS Victor R Preedy, Ronald Ross Watson, 2017-11-21 HIV AIDS Oxidative Stress and Dietary Antioxidants provides comprehensive coverage of oxidative stress in HIV AIDS focusing on both the pathological process around molecular and cellular metabolism and the complications that can arise due to nutritional imbalance It provides a pathway for researchers and clinicians to gain an in depth understanding of the role of oxidative stress bridging the transdisciplinary divide between virologists immunologists physicians clinical workers food scientists and nutritionists to advance medical sciences and enable preventative treatment strategies Very often oxidative stress is a feature of HIV AIDs or of the treatment of HIV AIDs While immunologists physicians and clinical workers understand the processes in HIV AIDs they may be less conversant in the science of nutrition and dietetics Similarly nutritionists and dietitians may be less conversant with the detailed clinical background and science of HIV AIDs Offers holistic coverage of HIV AIDS and the role of oxidative stress Written by a leading team of international experts Provides a roadmap to therapeutic potential and crosses the trans tissue or transdisciplinary divides Routledge Handbook of Water and Health Jamie Bartram, 2015-09-25 This comprehensive handbook provides an authoritative source of information on global water and health suitable for interdisciplinary teaching for advanced undergraduate and postgraduate students It covers both developing and developed country concerns It is organized into sections covering hazards including disease chemicals and other contaminants exposure interventions intervention implementation distal influences policies and their implementation investigative tools and historic cases It offers

71 analytical and engaging chapters each representing a session of teaching or graduate seminar Written by a team of expert authors from around the world many of whom are actively teaching the subject the book provides a thorough and balanced overview of current knowledge issues and relevant debates integrating information from the environmental health and social sciences

Human-Insect Interactions Sergey Govorushko,2018-01-09 This book presents a 360 degree picture of the world of insects and explores how their existence affects our lives the good bad and ugly aspects of their interactions with humankind It provides a lucid introductory text for beginning undergraduate students in the life sciences particularly those pursuing beginner courses in entomology agriculture and botany

Nutrition in Vulnerable Groups Enbo Ma,Yukiko Wagatsuma,2024-09-19 Nutrition requirements vary in children pregnancy and the elderly for the physiological difference in the body To maintain good health and prevent diseases the adequacy of nutrients is essential and adherence to healthy diets recommended needs to be monitored Uncertain physical social cultural and economic situations limit access to nutritious intake and impact health both in the developing e g wasting stunting underweight and mineral vitamin related malnutrition and developed e g obesity worlds However a healthy diet is not only determined by food safety and quality but also by food education nutritional practice during the life stages and food availability and accessibility to the population This is true in developing countries but also in developed ones where vulnerable groups including people living in conditions of poverty unemployment lack of schooling people with forms of addiction and ethnical minorities struggle to adhere to healthy diets and choose cheaper and often unhealthy options As a consequence excessive consumption of limited nutrients and inappropriate supplementation becomes as unhealthy as not consuming enough In the past three years the pandemic of COVID 19 has put significant troubles on human society exacerbating hard life conditions in vulnerable groups and worsening their adherence to healthy lifestyles and food choices Therefore the nutrition and diet related health issues in vulnerable people must be highlighted and followed up

Routledge Handbook of Gender and Agriculture Carolyn E. Sachs,Leif Jensen,Paige Castellanos,Kathleen Sexsmith,2020-10-28 The Routledge Handbook of Gender and Agriculture covers major theoretical issues as well as critical empirical shifts in gender and agriculture Gender relations in agriculture are shifting in most regions of the world with changes in the structure of agriculture the organization of production international restructuring of value chains climate change the global pandemic and national and multinational policy changes This book provides a cutting edge assessment of the field of gender and agriculture with contributions from both leading scholars and up and coming academics as well as policymakers and practitioners The handbook is organized into four parts part 1 institutions markets and policies part 2 land labor and agrarian transformations part 3 knowledge methods and access to information and part 4 farming people and identities The last chapter is an epilogue from many of the contributors focusing on gender agriculture and shifting food systems during the coronavirus pandemic The chapters address both historical subjects as well as ground breaking work on gender and agriculture which will help to chart the future of the field

The handbook has an international focus with contributions examining issues at both the global and local levels with contributors from across the world With contributions from leading academics policymakers and practitioners and with a global outlook the Routledge Handbook of Gender and Agriculture is an essential reference volume for scholars students and practitioners interested in gender and agriculture Chapter 13 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Regional Review on Status and Trends in Aquaculture Development in Sub-Saharan Africa - 2015

Food and Agriculture Organization of the United Nations, 2017 The present regional review and synthesis for sub-Saharan Africa SSA provides an overview of major issues and trends in the aquaculture sector between 2004 and 2014 with emphasis on outstanding issues over the last five years The regional review reflects development in 41 countries in SSA for which production was reported to FAO in 2014 The production volume and value data have been derived from the latest FAO global aquaculture dataset 1950-2014 FishStat

Urban Agriculture as Local Food Systems: Benefits, Challenges, and Ways Forward Tapan Kumar Nath, Sreetheran Maruthaveeran, 2025-09-30 Urban agriculture has emerged as a critical area of research due to the increasing pressures of population growth rapid urbanization climate change and land use changes on agricultural productivity and food security The COVID-19 pandemic has further highlighted the vulnerabilities in global supply chains leading to limited food availability and underscoring the need for resilient local food systems LFS LFS which involve locally or regionally produced food sold directly to consumers offer a promising approach to ensuring a steady food supply during crises This transition towards more inclusive resilient and sustainable food systems can enhance access to safe and healthy food benefit farmers boost local economies reduce dependency on imported food promote environmentally friendly production conserve local biodiversity and mitigate climate change Policymakers planners and advocates are increasingly recognizing the broader benefits of LFS including community building diversified economies civic engagement and climate resilience Urban agriculture through community gardens and urban farms plays a significant role in achieving sustainable development goals such as reducing urban poverty improving health and well-being creating sustainable cities and communities mitigating climate change preserving life on land and fostering partnerships among stakeholders

Multifunctional Agriculture Roger Leakey, 2017-04-14 In a world increasingly challenged by the need to integrate and understand highly specialized knowledge in a multidisciplinary way this book is innovative and perhaps unique in addressing this challenge It focuses on ideas strategies techniques and practices spanning many disciplines at the interface of agriculture with forestry horticulture plant physiology genetics ecology soil science food science economics and the social and environmental sciences as delivered by intensified and enriched agroforestry Multifunctional Agriculture addresses this complexity using case studies and insights from the needs of African farmers whose livelihoods are constrained by complex interactions between social environmental and economic factors and problems underlying agricultural sustainability in Africa

This book therefore provides an important resource for those trying to understand the role of agriculture in the achievement of the new Sustainable Development Goals by providing easily implementable practical and effective methodologies and practices Provides a single source comprehensive insight into agroforestry multifunctional agriculture it s potential challenges and progress Helps readers understand and assess potential opportunity through implementation Includes case studies and real world insights that address common situations and the practical application of best practices Explores the role of multi functional agriculture in mitigating climate change impacts providing value story beyond crop production

Yearbook of International Organizations 2013-2014 (Volumes 1a-1b) Union Of International Associations, Union of International Associations, 2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *Nutrition and Global Health* Shawn W. McLaren, 2022-10-17 NUTRITION and GLOBAL HEALTH Nutrition and Global Health began as a series of short literature reviews since then the work has become an authoritative and highly accessible resource on the vast and nuanced subject matter covered within One of the major themes of the work is integrating nutrition into other disciplines with its basis in biochemistry human physiology behavioural science and even political studies nutrition is a vital component in the success of interventions This book will provide students and practitioners with a roadmap for interpreting the global health landscape and create links between nutritional physiology policy and action Based on widely used practices in global health Nutrition and Global Health covers topics including Assessing nutritional status nutrition surveillance nutrition and infectious disease and maternal and child nutrition Micronutrient deficiencies including but not limited to iron iodine vitamin A zinc and folate plus the nutritional double burden of disease Food security sustainable food and agriculture working in the global health environment and nutrition in emergencies Answers to the questions How do I design an effective intervention and How can I decide whether or not my intervention has done what I intended it to do Unlike long and complex policy documents which rely on a solid foundation in basic sciences Nutrition and Global Health is an accessible resource that allows clinicians policy makers and planners to better understand the global health landscape and stage better interventions **Food Systems Sustainability and Environmental Policies in Modern Economies** Obayelu, Abiodun Elijah, 2018-03-09 Food security is essential to the advancement and development of economies and societies worldwide The promotion of viable food structures is the most effective method of promoting food security Food Systems Sustainability and Environmental Policies in Modern Economies is a relevant research publication that explores the importance of viable food structures as well as the critical positive impact these viable structures have on food security nutrition and poverty Featuring coverage on a broad range of topics such as irrigation schemes agricultural input subsidies and food cycles this publication is geared toward professionals researchers and students seeking current research on viable food structures and their impact on society
