Time Is Running Out:

Time Is Running Out! Daniel G. Ochoa, Discover the profound truth of our generation's role in Christ's approaching return Prepare for the ultimate separation and embrace the urgency of following Him Time Is Running Out presents a compelling case supported by scripture that the current generation is destined to witness the return of Christ Despite the urgency and significance of this revelation many individuals seem indifferent and disinterested in exploring what scripture has to say about these prophetic events Author Daniel G Ochoa challenges you to consider your readiness for Christ's return and the possibility of facing him after death Through a careful examination of biblical passages he delves into the essence of being a true follower of Christ raising essential questions Do we truly understand the implications of following Christ Are we prepared to make the necessary commitments to align our lives with His teachings A thought provoking wake up call this study urges you to delve into scriptural evidence gain a deeper understanding of your role in this pivotal time and embrace a genuine commitment to follow Christ

Landscape, Process and Power Serena Heckler, 2009-04-01 In recent years the field of study variously called local indigenous or traditional environmental knowledge TEK has experienced a crisis brought about by the questioning of some of its basic assumptions This has included reassessing notions that scientific methods can accurately elicit and describe TEK or that incorporating it into development projects will improve the physical social or economic well being of marginalized peoples The contributors to this volume argue that to accurately and appropriately describe TEK the historical and political forces that have shaped it as well as people's day to day engagement with the landscape around them must be taken into account TEK thus emerges not as an easily translatable tool for development experts but as a rich and complex element of contemporary lives that should be defined and managed by indigenous and local peoples themselves

Beyond Price J. David Velleman, 2015-10-08 In nine lively essays bioethicist J David Velleman challenges the prevailing consensus about assisted suicide and reproductive technology articulating an original approach to the ethics of creating and ending human lives He argues that assistance in dying is appropriate only at the point where talk of suicide is not and he raises moral objections to anonymous donor conception In their place Velleman champions a morality of valuing personhood over happiness in making end of life decisions and respecting the personhood of future children in making decisions about procreation These controversial views are defended with philosophical rigor while remaining accessible to the general reader Written over Velleman's 30 years of undergraduate teaching in bioethics the essays have never before been collected and made available to a non academic audience They will open new lines of debate on issues of intense public interest

My People Oodgeroo, 2020-11-09 my people Oodgeroo's writing has a unique place in Australian literature When her poetry was first published in the 1960s Kath Walker as she was known then provided a brave new voice for marginalised Aboriginal Australians For the first time an Aboriginal Australian was analysing and judging white Australians as well as her own people She often made provocative and passionate pleas for justice We want hope not
