United States And International Drug Control 191997:

United States and International Drug Control, 1909-1997 David R. Bewley-Taylor, 2002-04-22 The United States and International Drug Control 1909 1997 charts the US quest to internationalize the doctrine of drug prohibition The study reveals the origins motivation and methodologies as well as the recurring contradictions and inconsistencies present within the US overseas fight against the production manufacture trafficking and use of certain psychoactive substances Drawing on extensive historical materials David Bewley Taylor uses the international career of America s first Drug Czar Harry J Anslinger to explore how the US successfully exploited hegemonic superiority in 1945 to influence the philosophy of the multilateral drug control system operated by the United Nations More than a purely historical study the book employs an interdisciplinary approach to understanding the development perpetuation and consequences of a US driven multilateral drug control system Examining the contemporary UN drug control framework the author argues that international legislation is largely ineffective This provocative book is the first study to provide a picture of US involvement in drug control from its inception to the present day Its wide ranging scope makes it of interest not only to scholars of diplomatic history US foreign Policy and international relations but also to anyone concerned by the universal growth of the illicit drug problem

General Accounting Office, 1997 *The Global Underworld* Donald R. Liddick, 2004-07-30 Transnational crime is an increasing national security threat to the United States and to individual citizens around the world

Criminal groups both in the United States and abroad operate crime cartels that span national boundaries but in ways that affect all Americans and wreak havoc on law enforcement organizations as well as businesses and other entities such as the stock market. More often than not transnational crime takes the form of organized crime and in its many forms is responsible for overpriced goods, unsafe products, environmental hazards, corruption of public officials, the exploitation of women and children, tax evasion, theft, and piracy, identity theft, organ smuggling, stock market fraud, drug trafficking, and black market trading in armaments and weapons of mass destruction among other scandals and forms of misconduct. Because perpetrators often act in collusion with legitimate organizations and other powerful elites who either cooperate knowingly or unknowingly or are coerced through violence, dealing with the problem is especially difficult. Here Liddick describes the many groups responsible for transnational crimes and the nature and scale of their various enterprises. The result is a powerful testament to the globalization of criminal organizations and their danger to American society. From the Russian mafia to Chinese Triads, from outlaw motorcycle gangs to Latin American drug cartels, the nature and incidence of transnational crime is a serious threat to American security both at the national and the individual level. Because of America's porous borders, it is relatively easy for criminal foreigners to set up their organizations within the United States. Moreover, there are well established groups already present in the United States that are now capable of operating on a multinational level. While response to the problem has been overdue, recent efforts to address transnational crime include technological innovations and controversial legislation such as the Patriot Act and the Homeland Security Act. But how well will these measures protect Americans from the increasing prevalence of criminal organizations that are capable of carrying out crimes that span the globe? This important book provides an engaging glimpse into the world of transnational crime through an introduction to the various groups involved, true stories of criminal misconduct, and a careful review and evaluation of efforts to address the problem. *Renewing Democracy Into the Millennium* Trevor Munroe, 1999
