Kirsten Hextrum,2021-08-13 Honorable Mention 2022 Society of Professors of Education Outstanding Book Award Special Admission contradicts the national belief that college sports provide upward mobility opportunities Kirsten Hextrum documents how white middle class youth become overrepresented on college teams Her institutional ethnography of one elite athletic and academic institution includes over 100 hours of interviews with college rowers and track field athletes She charts the historic and contemporary relationships between colleges athletics and white middle class communities that ensure white suburban youth are advantaged in special athletic admissions Suburban youth start ahead in college admissions because athletic merit the competencies desired by university recruiters requires access to vast familial communal and economic resources all of which are concentrated in their neighborhoods Their advantages increase as youth parents and coaches strategically invest in and engineer novel opportunities to maintain their race and class status Thus college sports allow white middle class athletes to accelerate their racial and economic advantages through admission to elite universities Harmonic Maass Forms and Mock Modular Forms: Theory and Applications Kathrin Bringmann,Amanda Folsom,Ken Ono,Larry Rolen,2017-12-15 Modular forms and Jacobi forms play a central role in many areas of mathematics Over the last 10 15 years this theory has been extended to certain non holomorphic functions the so called harmonic Maass
