Democracy and Education in Namibia and Beyond Amukugo, Elizabeth M., 2017-07-19 The Namibian constitution makes full provision for education as a fundamental human right and freedom Three years into independence as part of the government's educational policy the Education for All Policy was launched as a stepping stone to free quality education However inequities have become widely pronounced within the Namibian educational system Democracy and Education in Namibia and beyond debates the education democracy nexus in Namibia and the southern African context It defines and explores the meaning of democracy and related concepts It also looks at what democracy means in the context of human rights and access to education The ten chapters in this collection interrogate the strengths and limitations of education as an instrument of social change and question whether or not the Namibian educational objectives and practices do develop and help to sustain a democratic culture in Namibia The authors in the collection have drawn material from their own teaching and research experience across the fields of education and social science in Namibia and beyond and present their findings in a pedagogical framework suitable as a challenging text for tertiary students At a time when education is in crisis especially in South Africa where strident calls for free tertiary education and Africanisation of the curriculum are spreading like wildfire this book gives scholarly insight into the history and social conditions that gave rise to our current predicament Teacher Education in Diverse Settings Larry Prochner, Ailie Cleghorn, Anna Kirova, Christine Massing, 2016-09-27 Teacher Education in Diverse Settings presents a study of initial educator preparation in three social contexts a training program for immigrant child care educators in Canada a pre and lower primary specialization in a teacher education program in Namibia and a partnership between the Misak indigenous communities in Colombia and the University of Cauca to deliver courses for educators within their communities In each setting the book explores the relationships between indigenous ways of thinking and western discourse in reference to the preparation of educators whether they be teachers community leaders or newly arrived immigrants in Canada In each case the authors focus is on the tensions between the local understandings and global ideas and the creation of space for diverse but intersecting worldviews The book's goal is to investigate ways that teacher educators parents and communities can better prepare children for the realities of schooling while preserving the integrity of local norms and values through educator preparation programs *Handbook of Quality of Life in African Societies* Irma Eloff, 2019-08-09 This handbook reflects on quality of life in societies on the continent of Africa It provides a widely interdisciplinary text with insights on quality of life from a variety of scientific perspectives The handbook is structured into sections covering themes of social context culture and community the environment and technology health education and family It is aimed at scholars who are working towards sustainable development at the intersections of multiple scientific fields and it provides measures of both objective and subjective quality of life The scholarly contributions in the text are based on original research and it spans fields of research such as cultures of positivity wellbeing literacy and multilingualism

Apartheid in the Twenty-First Century Howard Tafara Chitimira,Artwell Nhemachena,Tapiwa Victor Warikandwa,2021-09-27 In Global Jurisprudential Apartheid in the Twenty First Century Universalism and Particularism in International Law the contributors argue that the world is witnessing the formation of a global jurisprudential apartheid despite the promotion of democracy equality human rights and humanitarianism Examining organisations such as international criminal courts the World Trade Organisation the United Nations Security Council the International Monetary Fund and the World Bank the contributors unpack the challenges of global jurisprudential apartheid In particular they analyse the ways in which these organizations hold and contribute to the increasing inequalities between the Global North and the Global South Ultimately Global Jurisprudential Apartheid in the Twenty First Century shows that globalisation is a variant of the apartheid era particularism and not universalism working to advantage the Global North while disadvantaging the Global South under the pretense of humanitarianism **Leadership and Culture** Montgomery Van Wart,A. Independent Schools Yearbook 2012-2013 none, 2013-06-20 The highly respected book of reference of sought after Independent Schools in membership of the Independent Schools Council s Associations HMC GSA The Society of Heads IAPS ISA and COBIS *South Sudan Skills Story* Lawrence M. Tombe, 2017-09-28 The South Sudan Skills Story is an account about manpower and education development in South Sudan a narrative that includes efforts exerted in attainment of the much needed workforce for fuelling the countrys economy now fatally impacted by the ongoing internal strife Prior to escalation of the armed conflict that broke out in December 2013 hardly four years after the country gained its sovereignty on July 9 2011 the new nation was on course in setting up its new education system and basis of sustainable human development now shattered by the vicious war The conflict has eroded the countrys human potential through loss of life skills wastage and extreme brutalities perpetrated against citizens by the war drivers The education quandary is compounded by

displacement of over 3 million people from their homes and localities a dire situation that has caused severe food insecurity affecting over 7.5 million people. With over 2 million children forced out of school particularly in the most conflict affected regions of South Sudan including over 1.4 million forced out of the country as refugees to neighbouring countries it means that one in every three children in the country is out of school. The scale and magnitude of the unending human dispersal has severely curtailed South Sudan's ability to provide education to all its citizens. The once adopted slogan of bringing education to all in the country is now a far cry as the new nation heads to total collapse if the conflict is not halted. The South Sudan Skills Story urges the leaders of South Sudan who are proponents of the conflict to rise above self-serving political cleavages to stop the war for peace so that all the citizens are availed the opportunity to realize their fullest potential for development of the country. The narrative concludes that the people of this young nation will remain one of the most undereducated populations in the world as long as the legacy of war violence and impunity prevails in the country.

Deutsche Sprache und Kultur im afrikanischen Kontext Deutscher Akademischer Austauschdienst, 2014-12-01. Geschichte Gegenwart und Perspektiven der Beschäftigung mit deutscher Sprache und Kultur im subsaharischen Afrika. Die Beschäftigung mit der deutschen Sprache und Kultur trifft in dem großen und vielfältigen Raum, den das subsaharische Afrika umfasst, auf sehr unterschiedliche Voraussetzungen. Diese Bandbreite mit ihren sprachpolitischen Implikationen und ihren praktischen Folgen auszuleuchten, hat sich der DAAD zusammen mit afrikanischen Germanistinnen und Germanisten zur Aufgabe gemacht. Untrennbar damit verbunden ist eine zweite Fragestellung: Unter welchen Aspekten und in welcher fachlichen Akzentuierung ist die Beschäftigung mit der deutschen Sprache und Kultur in Afrika sinnvoll und auch möglich? Die Antworten auf diese Grundfragen bewegen sich stets im Zwischenraum einer interkulturellen Kulturwissenschaft und einer anwendungsorientierten Praxis.

Peacekeeping in Africa Marco Jowell, 2018-02-21. In recent decades African states have developed an impressive infrastructure for training their peacekeepers. In addition, peacekeeping, peacebuilding and associated areas of conflict resolution have become significant areas of employment. Marco Jowell has spent a decade working in peacekeeping training in East Africa, initially as one of the foreign Technical Advisers at the Peace Support Operations PSO training centre in Kenya, the International Peace Support Training Centre IPSTC, and subsequently as a strategic adviser to the Rwanda Peace Academy. Using first-hand experience, he considers how military forces from a variety of African states, with great differences in history, language and political systems, and with militaries with different cultures and capabilities, can conduct complicated multinational peacekeeping operations. He shows how regional peacekeeping training centres provide an environment for African elites, predominately military, to interact with each other through shared training and experiences. This process of interaction or socialisation improves skills but also encourages cohesion so that future African-led missions will be managed by well-trained officers who are comfortable and willing to work within a regional or Pan-African framework. Jowell shows that part of the aim of peacekeeping training centres is to foster a Pan-

Hasian Jr.,2019-10-04 This book provides readers with a critical analysis of the restorative justice efforts of the Ovaherero and Nama communities in Namibia who contend that they should receive reparations for what happened to their ancestors during and after the 1904 1908 German Ovaherero Nama war Arguing that indigenous communities who once lived in a German colony called German South West Africa suffered from a

genocide that could be compared to the World War II Holocaust Namibian activists sued Germany and German corporations in U S federal courts for reparations The author of this book uses a critical genealogical approach to all of this lawfare the politicizing of the law in order to illustrate some of the historical origins of this quest for social justice Portions of the book also explain some of the historical and contemporary realpolitik barriers that stood in the way of Ovaherero and Nama activists who were asking for acknowledgments of the Namibian genocide apologies from German officials repatriation of human remains from colonial times as well as restitution that might help with land redistribution in today s Namibia This book shows many of the difficulties that confront those indigenous communities who ask twenty first century audiences to pay restitution for large scale colonial massacres or imperial genocides that might have taken place more than a hundred years ago
