OBJECT OF THE GAME

Be the first player to score 500 points. Points are scored by getting rid of all the cards in your hand before your opponent(s). You score points for cards left in your opponents' hands.

SET UP

Place the Wheel Reference cards nearby; these will help you identify the icons on the wheel whenever it is spun.

Each player draws a card.

The person who draws the highest number deals.

Once the cards are shuffled each player is dealt 7 cards.

The remainder of the deck is placed facedown in the center of the wheel to form a DRAW pile.

The top card of the DRAW pile is turned over to begin a DISCARD pile, also in the center of the wheel.

LET'S PLAY

The person to the left of the dealer starts play.

The player taking their turn has to match the card on the DISCARD pile, either by number, color or symbol. For example, if the card is a red 7, the player must put down a red card or any color 7. Alternatively, the player can put down a Wild card (See FUNCTIONS OF ACTION CARDS).

If a NUMBER CARD played features a swirling pattern, this is a Spin card and the special rule applies (see SPIN CARDS).

If the player doesn't have a card to match the one on the DISCARD pile, they must take a card from the DRAW pile. If the card picked up can be played, the player is free to put it down in the same turn. Otherwise, play moves on to the next person in turn.

Players may choose not to play a playable card from their hand. If so, the player must draw a card from the DRAW pile. If playable, the card just drawn can be played immediately, but that player may not play a card that was already in their hand prior to the draw.

Uno Spin Instruction Manual:

Manual de instructor-monitor de Pickleball Adrián Paterna Roda, Manuel Alzaraz Ibáñez, Almudena Fernández Díaz-Carrasco, José Manuel Aguilar Parra, 2023-12-21 El pickleball es un deporte de raqueta que combina elementos de distintos deportes como bádminton, tenis y tenis de mesa. Esta modalidad deportiva se juega golpeando una pelota de plástico especial con agujeros por encima de una red similar en altura a la del tenis, con el objetivo de hacerla pasar al campo contrario. Este deporte está teniendo un rápido crecimiento en cuanto a su nivel de práctica y popularidad. Es por ello que nace la necesidad de desarrollar este manual con el objetivo de dar a conocer su historia y evolución, los materiales y equipamiento necesario para su juego, aspectos técnicos, tácticos y reglamentarios que son necesarios tanto para jugar como para la práctica de esta modalidad deportiva. Además, este manual incorpora recomendaciones para la práctica del pickleball en su modalidad inclusiva y como deporte adaptado, así como las orientaciones metodológicas necesarias para el diseño y dirección de sesiones de este deporte.

Collidge, Nathan Haskell Dole, George Jotham Hagar, 1903 *Arts of Perception* Jeremy Robbins, 2013-05-13 Arts of Perception offers a new account of a key period in Spanish history and culture and a fundamental reassessment of its major writers and intellectuals including Gracián, Quevedo, Calderón, Saavedra Fajardo, Lope de Vega and Sor Juana. Reading these figures in the context of European thought and the new science and philosophy, the study considers how they developed various arts of perception: complex perceptual strategies designed to overcome and exploit epistemic problems to enable an individual to act effectively in the moral, political, social or religious sphere. The study takes as its subject the distinctive epistemological mentality behind such arts of perception. This mentality was fostered by the creative interaction of scepticism and Stoicism and found expression in the key concepts *ser*, *parecer* and *engaño*, *desengaño*. The work traces the emergence, development and impact of these concepts on Spanish thought and culture. As well as offering new interpretations of specific major figures, Arts of Perception offers an interpretation of the mentality of an entire culture as it made the fraught transition to intellectual modernity. As such, it ranges over numerous discourses and formative contexts and provides a wealth of new material which will be of use to all those seeking to understand and interpret the literature, culture and thought of Golden Age Spain. This book was previously published as a special issue of The Bulletin of Spanish Studies.
