

On 15 April we're moving to flexible loans.
Here's how it will work...

Borrowing

When you borrow a book from the ordinary shelves, you'll automatically get it for at least **7 days...**

If someone reserves your book

We'll email you to let you know...

Someone wants your book. It's due in 7 days.

... and you'll have 7 days to return it

If you have reserved a book

We'll email you when it's ready...

Your book is ready for collection

... and you'll have 2 days* to pick it up from the library

* If you are a part-time or distance learner, or have declared a disability, you'll get 7 days to pick the book up.

If more than one person is waiting for the book...

... you'll just get the book for **2 days**

so everyone gets a chance to read it

(and the person waiting for your book will still get 2 days to pick it up)

We'll always contact you if you need to do anything – so remember to check your emails regularly.

Where Can I Borrow Textbooks:

Textbooks in Academic Libraries Chris Diaz, 2018-12-03 Shortly after the syllabi are posted and long before the beginning of the term interlibrary loan departments at academic libraries will have filled or rejected innumerable textbook requests While it would be unwise if not impossible to buy and circulate every textbook at a college or university there are many academic libraries who are selectively adding textbooks to their collections And the practice seems to be gaining momentum In this volume the Association for Library Collections and Technical Services ALCTS and editor Chris Diaz gather case studies that pull together creative approaches and best practices for print textbook reserve programs This book discusses such topics as results and analysis from a detailed survey of a state university's core course textbook reserve program funding sources for starting or piloting a program using aggregated enrollment grade and textbook cost data to identify high impact courses identifying course related books that are in the library's collection or fit an existing collection policy workflow for using bookstore data with ILS and purchasing systems and using LibGuides and Google Sheets to publicize textbook holdings and how a back end database supports discovery for students and reporting for reserves staff A textbook reserve program can be one way of helping students who are struggling with the high cost of textbooks and this book spotlights a variety of examples that can be used as models
