Technical Education Program Series United States. Division of Vocational and Technical Education, 1964
Technical Education Program Series No.6. Instrumentation Technology United States. Education Office, 1964
Scientific and Technical Aerospace Reports, 1973 Telecommunications Measurements, Analysis, and Instrumentation Kamilo Feher, 1996-12-31 A rare text dedicated to high performance measurement techniques in modern communications It describes high performance measurement techniques for digital communications and digital signal processing in radio and microwave systems wire line channels as well as measurements for analog communications channels AUTHOR S
COMMENTS The purpose of this book is to present the engineering considerations necessary for the comprehension of modern telecommunication measurement and related instrumentation and analysis techniques I wish to emphasize that this is not an academic book in the sense of analytical communications or measurement theory Rather it stresses the measurements experimental analysis and instrumentation problems related to communications systems PUBLISHER S
COMMENTS This book provides a strong foundation for understanding the special problems associated with testing modern communications systems Its original publication anticipated the needs of communications engineers setting a foundation for current work The book s continued availability assures that new engineers will have access to a key reference text in this important area of technology
