Building Wealth with Silver Thomas Herold, 2011 The greatest transfer of wealth in the nation and the world is now unfolding Money is about to flow away from the financially uninformed and flow towards the financially well informed in the years ahead Whenever governments start to dilute their money investors transfer their money into gold and silver Although gold is a great way to preserve your wealth it's silver you could actually make a fortune with Protect your savings and create a substantial investment income every single month Financial ignorance is the only reason you are not yet cashing in on the biggest wealth transfer in history A Solid Method to Achieve Financial Freedom This book will show you exactly how to live and prosper by the new laws of money in the new economy It will show you how to beat the new money thieves Banks and Governments at their own game while quietly profiting from the money meltdown that is now underway We are approaching a monetary crisis of epic proportions never before seen You are probably aware of the rising price of gold that's been going on for almost 10 years now Most recently gold started climbing with even greater speed History repeats itself again and again Whenever governments start to dilute their money investors transfer their money into gold and silver Gold and silver have intrinsic value and will always prevail in any economy Many financial experts predict that gold could at least double to 3 000 3 500 and some say even 5 000 But experts also predict the price of silver could rise seven to eight times its current value before hitting its peak What most

non investors and investors including yourself probably don't realize is that although gold is a great way to preserve your wealth it's silver that could actually make you rich. The price of gold has already risen dramatically but silver is just beginning its parabolic climb. Over the last 9 years the silver price increased an average of 29% per year. Compare this to the stock and real estate market which declined when adjusted for inflation.
