Technical Analysis Trading Methods and Techniques (Collection) Richard A. Dickson, Tracy L. Knudsen, Quint Tatro, 2011-12-30 Three indispensable books reveal little known technical and psychological techniques for outperforming the market and beating the traders you're up against. Three remarkable books help you leverage powerful little known insights from technical analysis and behavioral economics to consistently outperform the market. In *George Lindsay and the Art of Technical Analysis*, Ed Carlson resurrects the nearly forgotten technical analysis techniques created by the eccentric genius who called the beginning and end of history's greatest bull market within days. Carlson reveals why George Lindsay's techniques are especially valuable right now, demonstrates their power visually, simply and intuitively, and shows how to make the most of them without strong mathematical expertise. Next, *Mastering Market Timing* combines the powerful, long-proven technical analysis methods of Richard D. Wyckoff with the world-renowned analysis of Lowry Research, sharing deep new price-volume insights you can use to uncover emerging trends faster, even if you're entirely new to technical analysis. Finally, in *Trade the Trader*, Quint Tatro focuses on the real zero-sum nature of trading, helping you understand the traders you're up against, anticipate their moves, outwit them, and beat them. From world-renowned investing and trading experts Ed Carlson, Richard A. Dickson, Tracy L. Knudsen, and Quint Tatro.
