Humanistic Aspects of Technical Communication Paul. M. Dombrowski,2020-11-25 This book has two audiences and purposes The first audience comprises teachers of technical communication and graduate and undergraduate students commonly from English programs and without technical backgrounds The purpose for them is to introduce technical communication from the avenue of humanities with which many are familiar and allied The book serves them as an adjunct to conventional textbooks The second audience comprises scholars and practicing professionals already familiar with technical communication The purpose for them is to provide a handy collection with introduction of significant essays on recent humanistic developments

Technical Communication and the World Wide Web Carol Lipson,Michael Day,2005-05-06 Over the past decade the World Wide Web has dramatically changed the face of technical communication but the teaching of writing has thus far altered very little to accommodate this rapidly changing context Technical Communication and the World Wide Web offers substantial and broadly applicable strategies for teaching global communication issues affecting writing for the World Wide Web Editors Carol Lipson and Michael Day have brought together an exceptional group of experienced and well known teacher scholars to develop this unique volume addressing technical communication education The chapters here focus specifically on curriculum issues and the teaching of technical writing for the World Wide Web contributing a blend of theory and practice in proposing changes in curriculum and pedagogy Contributors offer classroom examples that teachers at all levels of experience can adapt for their own classes The volume provides comprehensive coverage of the technical communication curriculum from the two year level to the graduate level from service courses to degree programs This volume is an important and indispensable resource for technical writing educators and it will serve as an essential reference for curriculum and pedagogy development in technical communication programs

Resources in Education ,1994-07 *The Routledge Handbook of Digital Writing and Rhetoric* Jonathan

Alexander, Jacqueline Rhodes, 2018-04-27 This handbook brings together scholars from around the globe who here contribute to our understanding of how digital rhetoric is changing the landscape of writing Increasingly all of us must navigate networks of information composed not just with computers but an array of mobile devices increase our technological literacy and understand the changing dynamics of authoring writing reading and publishing in a world of rich and complex texts Given such changes and given the diverse ways in which younger generations of college students are writing communicating and designing texts in multimediated electronic environments we need to consider how the very act of writing itself is undergoing potentially fundamental changes These changes are being addressed increasingly by the emerging field of digital rhetoric a field that attempts to understand the rhetorical possibilities and affordances of writing broadly defined in a wide array of digital environments Of interest to both researchers and students this volume provides insights about the fields of rhetoric writing composition digital media literature and multimodal studies Editing in the Modern Classroom Suzan

Flanagan, Michael J. Albers, 2019-01-15 Editing in the Modern Classroom is a research based collection that defines the current state of technical editing pedagogy and plots a potential roadmap for its future It examines current academic and professional editing practices the global and corporate contexts of technical communication programs and the role of new challenges such as content management in order to assess what should be expected from editing courses today and how instructors can best structure their courses to meet these expectations It provides a research foundation to determine where changes are needed and points to areas where additional research must be done to support further curricular and pedagogical innovations Editing in the Modern Classroom challenges instructors to look deeper at the pedagogical aspects of what makes up an effective technical editing course at undergraduate and graduate levels and provides them with comprehensive and evidence based resources to design and teach these courses **Service-Learning and Writing:**

Paving the Way for Literacy(ies) through Community Engagement Isabel Baca, 2012-11-20 Service learning and Writing Paving the Way for Literacy(ies) through Community Engagement discusses service learning as a teaching and learning method and its integration with writing The various authors from different disciplines and institutions present service learning as a means of having students practice writing in real world settings and they show how relationship building and partnerships between higher education and diverse communities produce benefits for all involved the students faculty administrators and the communities themselves This volume demonstrates how writing instruction and or writing practice can complement community engagement and outreach at local national and international contexts Through different cross cultural contexts and academic disciplines the various authors explore reflection assessment internalization diversity and multiple literacies and their importance when integrating service learning in higher education and community literacy

Technology, Communication, Disparities and Government Options in Health and Health Care Services Jennie Jacobs Kronenfeld, 2014-09-02 This volume includes papers related to issues of technology communication health disparities

and government options in health and health care services It fills an existing gap by providing a clear sociological overview and focus on these topics *The Routledge Handbook of Language and Professional Communication* Vijay Bhatia, Stephen Bremner, 2014-02-24 The Routledge Handbook of Language and Professional Communication provides a broad coverage of the key areas where language and professional communication intersect and gives a comprehensive account of the field The four main sections of the Handbook cover Approaches to Professional Communication Practice Acquisition of Professional Competence Views from the Professions This invaluable reference book incorporates not only an historical view of the field but also looks to possible future developments Contributions from international scholars and practitioners focusing on specific issues explore the major approaches to professional communication and bring into focus recent research This is the first handbook of language and professional communication to account for both pedagogic and practitioner perspectives and as such is an essential reference for postgraduate students and those researching and working in the areas of applied linguistics and professional communication *Handbook of Cultural Intelligence* Soon Ang, Linn Van Dyne, 2015-01-28 Cultural intelligence is defined as an individual's ability to function effectively in situations characterized by cultural diversity With contributions from eminent scholars worldwide the Handbook of Cultural Intelligence is a state of the science summary of the body of knowledge about cultural intelligence and its relevance for managing diversity both within and across cultures Because cultural intelligence capabilities can be enhanced through education and experience this handbook emphasizes individual capabilities specific characteristics that allow people to function effectively in culturally diverse settings rather than the approach used by more traditional books of describing and comparing cultures based on national cultural norms beliefs habits and practices The Handbook covers conceptual and definitional issues assessment approaches and application of cultural intelligence in the domains of international and cross cultural management as well as management of domestic activity It is an invaluable resource that will stimulate and guide future research on this important topic and its application across a broad range of disciplines including management organizational behavior industrial and organizational psychology intercultural communication and more **Metaphor and Writing** Philip Eubanks, 2010-11-04 This volume explains how metaphors metonymies and other figures of thought interact cognitively and rhetorically to tell us what writing is and what it should do Drawing on interviews with writing professionals and published commentary about writing it argues that our everyday metaphors and metonymies for writing are part of a figurative rhetoric of writing a pattern of discourse and thought that includes ways we categorize writers and writing stories we tell about people who write conceptual metaphors and metonymies used both to describe and to guide writing and familiar yet surprisingly adaptable conceptual blends used routinely for imagining writing situations The book will give scholars a fresh understanding of concepts such as voice self clarity power and the most basic figure of all the writer *Beyond Conversation* William Duffy, 2021-01-04 Collaboration was an important area of study in writing for many years but interest faded as scholars began to assume that

those working within writing studies already got it In *Beyond Conversation* William Duffy revives the topic and connects it to the growing interest in collaboration within digital and materialist rhetoric to demonstrate that not only do the theory pedagogy and practice of collaboration need more study but there is also much to be learned from the doing of collaboration While interrogating the institutional politics that circulate around debates about collaboration this book offers a concise history of collaborative writing theory while proposing a new set of commonplaces for understanding the labor of coauthorship Specifically *Beyond Conversation* outlines an interactionist theory that explains collaboration as the rhetorical capacity that manifests in the discursive engagements coauthors enter into with the objects of their writing Drawing on new materialist philosophies post qualitative inquiry and interactionist rhetorical theory *Beyond Conversation* challenges writing and literacy educators to recognize the pedagogical benefits of collaborative writing in the work they do both as writers and as teachers of writing The book will reinvigorate how teachers scholars and administrators advocate for the importance of collaborative writing in their work
