she faces an enemy whose sole purpose is to kill every human being in the universe The location of the enemy s home planets is unknown This enemy has unlimited ships and no concern about the high losses to their personnel The initial evaluation is that the enemy may not even be human They are given the name Grays A creature like the Grays seems rather harmless compared to what fiction shows you The Grays went unchallenged only because they looked so weak and fragile No one saw them as a serious threat I can only think of the army ants on the march No one takes an ant seriously however an army of ants will devastate an area and kill every living creature The Grays are the same type of threat to mankind As the Grays are building up their fleets and personnel Deborah desperately searches the known universe for additional personnel in this

search she even goes to primitive nations The United States strips its military forces to provide as many personnel as possible Despite this effort there are still not enough personnel Deborah s scientists are working around the clock to not only upgrade her weapons but also provide her with new types of weapons Ramah and the United States are making a maximum effort to prepare for the upcoming battle with the Grays In this battle either the humans or the Grays will become extinct
