Secret Rovers James Taylor,Douglas Cooke,2025-04-29 In the late 1960s the old Rover Company put everything it knew into a complex luxury saloon codenamed P8 At the same time it planned to branch out into a new sector of the market with a stunningly advanced mid engined sports car prototype that became a formal project with the codename of P9 However with the forced merger into British Leyland in 1968 Rover found itself squeezed between Triumph and Jaguar neither marque welcomed the new sports car and Jaguar particularly did not welcome the new luxury saloon Little by little Rover s plans were undermined and in 1970 the sports car was killed off followed by the luxury saloon which was axed in 1971 a mere six months before production was due to start Just a year later Rover itself ceased to exist as a separate business after a forced merger with Triumph *Top Gear: My Dad Had One of Those* Giles Chapman,Richard Porter,2012-06-30 Good old Dad and his good old Dad s car As solid and dependable as the man himself if a little less balding Dad s car was almost a member of the family whisking you to exciting days out or just to visit boring relatives in distant parts of the country to the chant of are we nearly there yet Like the man behind the wheel Dad s car made you feel safe and secure because it was as reassuring and sensible as he was Maybe in an idle moment Dad dreamt of driving something rakish and fast just like in idle moments he dreamt that your Mum was Twiggy but the demands of family life meant soft tops hard suspension and anything even remotely sporty were off the cards Even anything less than four doors would have been wildly hedonistic But although the family car may not have been the very essence of rock n roll Dad was proud of it Spanning the 1950s to the 80s this is a celebration of the heyday of the Dad car From much loved family workhorses like the Ford Cortina and Vauxhall Viva to the rakish excitement and playground kudos of the Rover 3500 and Citroen CX all the great Dad cars are here Reflecting a time before people carriers and lifestyle off roaders when the nearest thing to an airbag was hiding behind your fat brother this is a celebration of simple honest cars that were as flawed and as loveable as your Dad himself **Focus On: 100 Most**

Each year car manufacturers release new production models that are unique and innovative. These cars begin as concepts then go through the process of prototyping. The process of creating a new model can take years involving extensive testing and refining of aerodynamics safety engine components and vehicle styling. The production model is the result of this lengthy process and its new technologies reflect the latest engineering standards as well as market trends. The 2014 Passenger Car Yearbook details the key engineering developments in the passenger vehicle industry of the year. Each new car model is profiled in its own chapter with one or more articles that were previously published and written by the award winning editors of Automotive Engineering International. The novel engineering aspects of each new model are explored in depth. Interviews with key developers and engineers are included for some of the models providing inside details about how initial ideas evolved in the cars that consumers drive. Published for enthusiasts who are interested in new car models and their technologies as well as practicing automotive engineers who are interested in new engineering trends such as hybrid systems powertrain designs automotive design lightweighting and materials and new engineers who want an overview of current trends the 2014 Passenger Car Yearbook also Provides a single source for information on the key engineering trends of one year. Allows the reader to skip to chapters that cover specific car models that interest them or read about all models from beginning to end. Makes for dynamic reading with its large number of big full color images and easy reading magazine format. *The Design Encyclopedia* Mel Byars, 2004.
