instances in which the two have merged to form a distinctive subgenre known as Tech Noir From the German Expressionist cinema of the late 1920s to the present day cyberpunk movement the book examines more than 100 films in which the common noir elements of crime mystery surrealism and human perversity intersect with the high technology of science fiction The author also details the hybrid subgenre s considerable influences on contemporary music fashion and culture

Digital Destiny Shawn DuBravac,2015-01-12 Our world is about to change In Digital Destiny How the New Age of Data Will Change the Way We Live Work and Communicate Shawn DuBravac chief economist and senior director of research at the Consumer Electronics Association CEA argues that the groundswell of digital ownership unfolding in our lives signals the beginning of a new era for humanity Beyond just hardware acquisition the next decade will be defined by an all digital lifestyle and the Internet of Everything where everything from the dishwasher to the wristwatch is not only online but acquiring analyzing and utilizing the data that surrounds us But what does this mean in practice It means that some of mankind s most pressing problems such as hunger disease and security will finally have a solution It means that the rise of driverless cars could save thousands of American lives each year and perhaps hundreds of thousands more around the planet It means a departure from millennia old practices such as the need for urban centers It means that massive inefficiencies such as the supply chains in Africa allowing food to rot before it can be fed to the hungry can be overcome It means that individuals will have more freedom in action work health and pursuits than ever before *Make: Technology on Your Time*

Intelligence Analysis in the Digital Age Stig Stenslie,Lars Haugom,Brigt H. Vaage,2021-08-05 This book examines intelligence analysis in the digital age and demonstrates how intelligence has entered a new era While intelligence is an ancient activity the digital age is a relatively new phenomenon This volume uses the concept of the digital age to highlight the increased change complexity and pace of information that is now circulated as new technology has reduced the time it takes to spread news to almost nothing These factors mean that decision makers face an increasingly challenging threat environment which in turn increases the demand for timely relevant and reliable intelligence to support policymaking In this context the book demonstrates that intelligence places greater demands on analysis work as the traditional intelligence cycle is no longer adequate as a process description In the digital age it is not enough to accumulate as much information as possible to gain a better understanding of the world To meet customers needs the intelligence process must be centred around the analysis work which in turn has increased the demand for analysts Assessments not least predictions are now just as important as revealing someone else s secrets This volume will be of much

interest to students of intelligence studies security studies and international relations

Design Unbound: Designing for Emergence in a White Water World, Volume 2 Ann M. Pendleton-Jullian, John Seely Brown, 2018-12-04 Tools for navigating today's hyper connected rapidly changing and radically contingent white water world Design Unbound presents a new tool set for having agency in the twenty first century in what the authors characterize as a white water world rapidly changing hyperconnected and radically contingent These are the tools of a new kind of practice that is the offspring of complexity science which gives us a new lens through which to view the world as entangled and emerging and architecture which is about designing contexts In such a practice design unbound from its material thingness is set free to design contexts as complex systems In a world where causality is systemic entangled in flux and often elusive we cannot design for absolute outcomes Instead we need to design for emergence Design Unbound not only makes this case through theory but also presents a set of tools to do so With case studies that range from a new kind of university to organizational and even societal transformation Design Unbound draws from a vast array of domains architecture science and technology philosophy cinema music literature and poetry even the military It is presented in five books bound as two volumes Different books within the larger system of books will resonate with different reading audiences from architects to people reconceiving higher education to the public policy or defense and intelligence communities The authors provide different entry points allowing readers to navigate their own pathways through the system of books

Premediation: Affect and Mediality After 9/11 R. Grusin, 2010-04-09 In an era of heightened securitization print televisual and networked media have become obsessed with the pre mediation of future events In response to the shock of 9 11 socially networked US and global media worked to pre mediate collective affects of anticipation and connectivity while also perpetuating low levels of apprehension or fear

Covering Extended Reality Technologies in the Media Emma Kaylee Graves, 2023-12-28 This book presents a study of the news coverage of extended reality technologies virtual augmented and mixed reality or XR and how this news corresponds with the marketing of XR products Focusing on a group of recently emerging technological products the book offers in depth analysis of the news coverage of XR technologies and explores the overlap between news discourse and promotional discourse by comparing the way these products are framed in the news and their marketing materials Using both quantitative and qualitative data it discusses the topics covered in XR news as well as the sources used and the specific framing techniques that appear in both XR news and marketing materials In addition to these findings it also provides a set of frame categories that can be used by other researchers analysing the media coverage of emerging technologies Ultimately arguing that the news represents XR in such a way that treats readers as consumers instead of citizens prioritising the interests of XR companies rather than news audiences this book will be of interest to students and researchers in media and communications discourse studies journalism PR and marketing and innovation studies as well as XR practitioners
