Gediminas Lesutis,2021-12-30 Based on critical theory and ethnographic research this book explores how intensifying geographies of extractive capitalism shape human lives and transformative politics in marginal areas of the global economy Engaging the work of Judith Butler Henri Lefebvre and Jacques Rancière with ethnographic research on social and political effects of mining induced dispossession in Mozambique in the book Lesutis theorises how precarity unfolds as a spatially constituted condition of everyday life given over to the violence of capital Going beyond labour relations or governance of life in liberal democracies that are typically explored in the literature on precarity the book shows how dispossessed people are subjected to structural symbolic and direct modalities of violence this simultaneously constitutes their suffering and ceaseless desire however implausible to be included into abstract space of extractivism As a result despite the multifarious

violence that it engenders extractive capital accumulation is sustained even in the margins historically excluded from contingently lived imaginaries of a good life promised by capitalism Presenting this theorisation of precarity as a framework on and a critique of the contemporary politics of unliveability the book speaks to key debates about precarity dispossession resistance extractivism and development in several disciplines especially political geography IPE global politics and critical theory It will also be of interest to scholars in development studies critical political economy and African politics
