Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC s mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics

Bantu Authorities Veronica Ehrenreich-Risner, 2022-02-18 In Bantu Authorities Apartheid's System of Race and Ethnicity Veronica Ehrenreich-Risner provides the first holistic study of the Bantu Authorities BA system that implemented rural apartheid. The system extended segregation by including ethnos theory to establish underfunded self governing homelands to curb the expense of native administration yet retain control of the cheap labor upon which white capital depended. Based on over sixty interviews with Zulus and former commissioners and archival research Bantu Authorities proves the primary objective of the system was to protect white capital with white racial purity. Secondary Ehrenreich-Risner argues that the system disrupted the Brownlee tradition of guardianship for commissioners and the tradition of reciprocity for Ubukhosi. Bantu Authorities ends by examining the lingering consequences of rural apartheid and asks what rural Africans have gained with majority rule when they remain bound to BA structures.
