CIB Proceedings 2015: Going north for sustainability: Leveraging knowledge and innovation for sustainable construction and development Prof. Charles Egbu, 2015 This International Conference is about sustainability in its wider sense It is an important area of discourse as it pertains to how we work and how we lead our lives while considering the lives and workplaces of future generations The conference particularly sets out to explore some of the developments and challenges taking place in academia and industry in both the Northern and Southern hemispheres The conference is entitled Going north for sustainability The North signifies progress in technology education and other areas of human endeavour to many people Progress requires that people learn across continents and cultures *South African Language Rights Monitor 2011 / Suid-Afrikaanse Taalregtemonitor 2011* Johan Lubbe, Theodorus du Plessis, 2016-01-05 The SALRM 2011 provides a rich source of information on a range of language related subjects A prominent issue remains the changing of street and place names including the Pretoria Tshwane and Louis Trichardt Makhado sagas Language in education remains a thorny issue as medium of instruction at school and tertiary level and the proposal that passing an African language should be a requirement in order to obtain a tertiary degree in South Africa In terms of language legislation the draft version of the National Language Act was proposed The language of record in courts also received attention in the media **Radio, Public Life and Citizen Deliberation in South Africa** Sarah Chiumbu, Gilbert Motsaathebe, 2021-05-24 This book critically analyses the important role of radio in public life in post apartheid South Africa As the most widespread and popular form of communication in the country radio occupies an essential space in the deliberation and the construction of public opinion in South Africa From just a few state controlled stations during the apartheid era there are now more than 100 radio stations reaching vast swathes of the population and providing an important space for citizens to air their views and take part in significant socio economic and political issues of the country The various contributors to this book demonstrate that whilst print and television media often serve elite interests and audiences the low cost and flexibility of radio has helped it to create a common space for national dialogue and deliberation The book also investigates the ways in which digital technologies have enhanced the consumption of radio and produced a sense of imagined community for citizens including those in marginalised communities and rural areas This book will be of interest to researchers with an interest in media politics and culture in South Africa specifically as well as those with an interest in broadcast media more generally Immiserizing Growth Fails the Poor Paul Shaffer, 2024-01-23 Immiserizing Growth Fails the Poor refers to situations where economic growth does not lead to poverty reduction How should this phenomenon be conceptualized How often when and where does it occur Why does it occur Shaffer addresses these three sets of questions drawing on a wide range of theoretical perspectives and empirical approaches This volume presents a conceptualization of immiserizing growth which combines the notions of failed and malevolent inclusion being bypassed and avoidably harmed by growth respectively It develops this

concept of malevolent inclusion drawing on a debate in philosophy about doing and allowing harm The analysis proceeds to examine the characteristics and causes of immiserizing growth on the basis of comparable household survey data from the 1990s using multiple poverty lines and time periods and different measures of growth and poverty The book also explores theories processes and mechanisms of immiserizing growth found in a wide variety of bodies of thought including the classical tradition of political economy Mathus Ricardo and Marx more recent radical traditions of scholarship literatures on poverty dynamics and inclusive growth and empirical case studies It proceeds to empirically investigate some of the variables uncovered in this literature using cross country econometric techniques methods of qualitative comparative analysis and case studies from sub Saharan Africa matched using cluster analysis and situated within a typological framework Human
