**Challenges and Opportunities of Open Educational Resources Management** Thanuskodi, S., 2020-06-26 Education is a fundamental human right yet much of the world's population lives with poor literacy. Due to rapidly growing technology and internet usage, open educational resources (OER) are increasingly being used to help transcend barriers to literacy while also aiding in educational attainment. With tremendous developments in ICTs, the education system of today has been enriched by various OERs. The optimal utilization of opportunities provided by the technological developments presents a profound challenge for education systems and has serious implications involving cost, access, equity, pedagogy, and quality. Challenges and Opportunities of Open Educational Resources Management is an essential research publication that explores access to information and societal and economic hurdles that contribute to informational inaccessibility. Highlighting topics such as e-resources, digital libraries, and information management, this book is ideal for librarians, academicians, computer scientists, researchers, policymakers, and students. Moreover, the book will provide insights and support executives concerned with the management of expertise, knowledge, information, and organizational development in different types of work communities and environments.

Research Anthology on Collaboration, Digital Services, and Resource Management for the Sustainability of Libraries Management Association, Information Resources, 2021-01-15 Faced with increased budget cuts, libraries must continue to advance their services through new technologies and practices in order to keep pace with the rapid changes society is currently facing. The once traditional in-person services offered can no longer be the only option, and to keep themselves afloat, libraries must offer more in terms of digital services. The convenience of offering mobile and digital services brings a new wave of accessibility to libraries and a new question on just how much libraries will need to change to meet the newfound needs of its patrons. Beyond offering these digital services, libraries are incorporating other types of technology in multifaceted ways such as utilizing artificial intelligence, practices, social media, and big data management. Moreover, libraries are increasingly looking for ways to partner and collaborate with the community, faculty, students, and other libraries in order to keep abreast of the best practices and needs of their users. The Research Anthology on Collaboration, Digital Services, and Resource Management for the Sustainability of Libraries explores emerging strategies and technologies that are redefining the role of the library within communities and academia. This reference book covers extensive ground on all the ways libraries have shifted to manage their resources, digitalize their services, and market themselves within the new technological revolution. These continued shifts for libraries come with benefits, challenges, and

future projections that are critical for discussion as libraries continue to strive to remain updated and relevant in times of change This book is ideal for librarians archivists collection managers IT specialists electronic resource librarians practitioners stakeholders researchers academicians and students who are interested in the current state of libraries and how they are transforming to fit modern needs

**Information, Knowledge, and Technology for Teaching and Research in Africa** Dennis Ocholla, Omwoyo Bosire Onyancha, Aderonke Olaitan Adesina, 2024-08-27 This book focuses on information seeking and the knowledge economy for teaching and research in Africa The book first explores the evolution and current state of information seeking behavior research demonstrating its importance in informing practice policy and design of information systems Despite the informal sector's substantial contributions to the national economy in Uganda there is a lack of studies delving into its information needs as well as an information gap in government NGOs and other stakeholders The book proposes that an appropriate information behavior model for information poor communities such as informal entrepreneurs must be grounded on oral traditions and indigenous knowledge and should be sensitive to poverty infrastructure and illiteracy The negative impact of the lack of financial literacy skills for women entrepreneurs is investigated and solutions for this problem are suggested including regular assessments of women entrepreneurs financial literacy skills and the introduction of training courses The role of academic libraries in universities library services for students with disabilities and accessibility of library services to students with disabilities is discussed and theoretical models for enhancing service in academic libraries are presented The book highlights the specific challenges and opportunities related to information literacy for secondary schools and concludes by examining the rapid changes in library and information science research in South Africa

**Genders, Sexualities, and Complexities in Africa** Gabi Mkhize, Stanley Osezua Ehiane, Lupenga Mphande, 2025-02-20 This book's significance is in its African centred border crossing overt and covert forces working against genders and sexualities reinforcing endemic gender

and sexual based complexities Pragmatically sexualities and genders in Africa remain contested and an area of power and control contestations in both the private and public spheres Gender based violence and femicide GBVF in particular continue to escalate particularly during the COVID 19 pandemic Such GBVF at most affects young women migrants LGBTIQIA people sex workers informal street traders and widows amongst others This is happening at a time when the feminist and women s movements in Africa are experiencing fragmentations and factions that pull and push organising to the margins of prejudice internally thereby exacerbating an act of subordinated inclusion In this context the term subordinated inclusion connotes another form of complexity where the subaltern has been brought inside a room as an act of inclusion yet systemically subordinated through structure and obedience thereby compromising agency This complexity occurs in private and public domains where a continuum of contestations between structure and agency is sustained Consequently power struggles emerge and proliferate unabated into gendered and sexualised complexities including relations of state coloniality apartheid prejudice marginalization capitalism and democracy This book thus strives to surface these contestations and complexities and how they continue to thrive in an era that seeks another way possible a way out a jump off a manner of dealing and an exit from the status quo Environmental or Occupational Exposure to Optical Radiation: Risk Evaluation, Health Effects and Prevention - Tangible Innovation for Public and Occupational Health?
