*Contemporary High Performance Computing* Jeffrey S. Vetter, 2019-05-08 *Contemporary High Performance Computing From Petascale toward Exascale Volume 3* focuses on the ecosystems surrounding the world's leading centers for high performance computing HPC It covers many of the important factors involved in each ecosystem computer architectures software applications facilities and sponsors This third volume will be a continuation of the two previous volumes and will include other HPC ecosystems using the same chapter outline description of a flagship system major application workloads facilities and sponsors Features Describes many prominent international systems in HPC from 2015 through 2017 including each system's hardware and software architecture Covers facilities for each system including power and cooling Presents application workloads for each site Discusses historic and projected trends in technology and applications Includes contributions from leading experts Designed for researchers and students in high performance computing computational science and related areas this book provides a valuable guide to the state of the art research trends and resources in the world of HPC

**Culture, philosophies and reforms in public administration for the globalizing world** Edwin O.C. Ijeoma, Ogochukwu I. Nzewi, 2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called middle range discourses concerning organisational level issues in government e.g leadership and work procedures and explores new solutions to old governance challenges like corruption and service delivery The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way Through its multidisciplinary lens the book opens up a new vision for the future of public administration in the South African context and on the African continent not neglecting the current local regional and global environment Until recently globalisation was considered an entrenched world order but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history This includes developments such as the successful referendum in Britain to exit the European Union highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole Pointedly it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge On the policy front there are perennial challenges of land reform service delivery and poverty while on the governance front corruption has metastasised with a growing culture of impunity and lack of accountability in leadership In the midst of growing corruption and more than 20 years into democracy South Africa's income inequality remains one of the highest in the world This setting constitutes the context of the research outcome

Fombad, Collence Takaingenhama Chisita, Omwoyo Bosire

Onyancha, Mabel K. Minishi-Majanja, 2023-07-24 The publication seeks to establish how information professionals are providing information services in a sustainable society in an era of information disorder. It also provides the strategic direction to strengthen the global voice of libraries, inspiring and enhancing professional practice as well as enhancing international cooperation and collaboration among LIS educators and practitioners. The contents are divided according to the following key sub-themes that resonate with the title as outlined below: Library and information services in the information age; Data and records in an era of information disorder; Archives data curation and preservation in the digital era; Data science analytics and visualization; Information ethics in the digital era; Information deluge in the digital era; Information and knowledge management; Fourth Industrial revolution. The highlighted themes explore critical issues relating to how libraries, archives, and related institutions are responding to the seismic shifts in the information landscape amidst a myriad of challenges and opportunities. The sub-themes bring together a tapestry of articles that explore the status, experiences, and future prospects of the dynamic library and information science practice.

Quantitative and Applied Research Methodology in Economics Niranjana Devkota, Sushanta Kumar Mahapatra, 2025-06-06 This book is an illustrative and comprehensive guide designed to help readers understand and navigate the complex world of academic writing and research in economics. Written by experienced researchers, this book offers theoretical and practical insights into the research process. It provides an understanding of the foundations of the research process like research design, methodology, problem definition, data collection, and analysis, among others. The authors also share insights into the process of preparing proofreading and publishing academic papers. With their experience in the field of academic research, in this book, they provide practical examples and step-by-step guidance to assist in research-related issues. The section on how to prepare and publish academic papers is a must-read for students and early career researchers as it offers valuable guidance on how to succeed in the highly competitive world of academic publishing. With its clear and concise writing, this book will be an indispensable resource for undergraduate and postgraduate economics students, teachers, independent readers, and early career researchers as well as those seeking a deeper understanding of research methodology in economics.

**Wireless Communication** Prashant Ranjan, Ram Shringar Rao, Krishna Kumar, Pankaj Sharma, 2022-08-10 This reference text will benefit readers in enhancing their understanding of the recent technologies, protocols, and challenges in various stages of development of wireless communication and networking. The text discusses the cellular concepts of 4G, 5G, and 6G along with their challenges. It covers topics related to vehicular technology wherein vehicles communicate with the traffic and the environment around them using short-range wireless signals. The text comprehensively covers important topics including use of the Internet of Things (IoT) in wireless communication architecture and protocols. It further covers the role of smart antennas in emerging wireless technologies. The book discusses advanced techniques used in the field of wireless communication. It covers technologies including network slicing, 5G wireless communication, and TV white space technology. It discusses practical

applications including drone delivery systems public safety IoT virtual reality and smart cities Covers radio theory and applications for wireless communication with ranges of centimeters to hundreds of meters Discusses important topics including metamaterials inductance coupling for loop antennas bluetooth low energy wireless security and wireless sensor networks Discussing latest technologies including 5G 6G IoT vehicular technology and TV white space technology this text will be useful for senior undergraduate graduate students and professionals in the fields of electrical engineering and electronics and communication engineering

### **Technological Trends in Improved Mobility of the Visually Impaired**

Sara Paiva,2019-07-01 This book provides an insight into recent technological trends and innovations in mobility solutions and platforms to improve mobility of visually impaired people The authors goal is to help to contribute to the social and societal inclusion of the visually impaired The book s topics include but are not limited to obstacle detection systems indoor and outdoor navigation transportation sustainability systems and hardware devices to aid visually impaired people The book has a strong focus on practical applications tested in a real environment Applications include city halls municipalities and companies that can keep up to date with recent trends in platforms methodologies and technologies to promote urban mobility Also discussed are broader realms including education health electronics tourism and transportation Contributors include a variety of researchers and practitioners around the world Features practical tested applications of technological mobility solutions for visual impaired people Presents topics such as obstacle detection systems urban mobility smart home services and ambient assisted living Includes a number of application examples in education health electronics tourism and transportation

**Chemical Methods for Thin Film Deposition** Babasaheb R. Sankapal,Ahmed Ennaoui,Ram B. Gupta,Chandrakant D.

Lokhande,2023-07-02 This book explores chemical methods for thin film deposition with diverse nanostructured morphology

and their applications Unlike top down techniques chemical methods offer low cost simplicity and growth of nanostructured surface architecture with ease of small to large scale area deposition The book primarily focuses on innovative twelve chemical methods for thin film deposition on one platform Since each method has its own advantages and disadvantages it is crucial to select the specific method for specific material to be deposited depending upon what type of application is targeted Due to inclusive of diverse chemical deposition methods researcher will have knowledge about best choice of the deposition method to be adopted Inclusive methods discussed in the book are chemical bath deposition successive ionic layer adsorption and reaction ion exchange electroless deposition electrodeposition hydrothermal spray pyrolysis spin coating dip coating doctor blade screen printing and sol gel The selection of the correct procedure for material to be deposited in thin film form depends on its unique process parameters based on the kind of application and its requirement The role of preparative factors necessary for thin film alters properties related to structure and surface morphology electrical conductivity and optical band gap which have been extensively discussed along with the underlying science of film synthesis The book provides a comprehensive overview of the field of chemical methods for thin film synthesis to applications In addition to synthesis the book covers characterization instrumentation and industrial application of thin films As a result concentrated techniques will be of great interest to university college professors students and new engineers as well as postdocs and scientists in the area

**Metal-Organic Framework Nanocomposites** Anish Khan, Mohammad Jawaid, Abdullah

Mohammed Ahmed Asiri, Wei Ni, Mohammed Muzibur Rahman, 2020-11-24 Metal Organic Framework Nanocomposites From Design to Application assembles the latest advances in MOF nanocomposites emphasizing their design characterization manufacturing and application and offering a wide ranging view of these materials with exceptional physical and chemical properties FEATURES Discusses various types of MOF materials such as polyaniline MOF nanocomposites magnetic MOF nanocomposites and carbon nanotube based MOF nanocomposites Includes chapters on the usage of these materials in pollutant removal electrochemical devices photocatalysts biomedical applications and other applications Covers different aspects of composite fabrication from energy storage and catalysts including preparation design and characterization techniques Emphasizes the latest technology in the field of manufacturing and design Aimed at researchers academics and advanced students in materials science and engineering this book offers a comprehensive overview and analysis of these extraordinary materials

**Science Cultures in a Diverse World: Knowing, Sharing, Caring** Bernard Schiele, Xuan

Liu, Martin W.
