This Stanford roommate essay example can be used as a preparation material for students who want to write their papers on the similar topic. Dear future Stanford roommate, My name is Rosetta, but I adore when my friends call me Rose. It reminds me of my favorite movie Titanic and its main female character Rose Dawson. I want to warn you that I adore watching this masterpiece at least once a month. To tell you the truth about other types of films, I am not a very avid fan. I hate horror films, and I am that person who hasn't seen even one episode of Game of Thrones. If you are its voracious devotee, you may try persuading me to watch it. Maybe, I just need somebody to give me a great spur. As to my hobbies, I adore ballroom dancing, and I virtually dance everywhere, especially at home. So, don't be scared if you suddenly find me performing weird movements while I am frying eggs in the kitchen. It is my way of unwinding and relaxing. Some other unusual things which you should know before we share one room together is that I never kill any live insects. I just can't stand if somebody kills them in front of me. So, if you would have a desire to get rid of flies or gnats, just do it if I don't see this. I'll be delighted if you appreciate my strange attitude towards those small creatures. You can think that I am a vegetarian due to the previous odd love to insects, but I am not. I adore eating chicken food and every meal connected with it. As I started talking about food habits, I hate when anyone takes my food from the same plate. That's why, after I buy chips or fruits, I always use two plates. One of them is wholly mine, and another is for guests. It doesn't mean that I am greedy, I just like treating others this way. As all Stanford undergraduates, I would spend lots of time studying. I always prepare tests and notes using our study guides in advance. My best way study is in the evening. I am not that kind of a morning bird who prefers to learn the material before classes. I would rather keep late hours and go to sleep at 3 am than go to bed at 9 pm and continue learning the material in the early morning. If you do not endorse such regime, I promise you won't hear any sound from me while I'm doing my night studying. My favorite means of remembering information is creating mind maps; before the exams, this method helps me revise all the material. Although I am not good at painting, I can draw mind maps pretty lovely. During the preparation I scatter many multiple pencils, pens, colorful paper, stickers to create a creative mess. I promise you that everything will be taken away. In the morning I devote half an hour to yoga exercises. It helps me to get focused on study for classes. If you want, you can try...

Departing from Deviance Henry L. Minton, 2010-11-15 The struggle to remove the stigma of sickness surrounding same sex love has a long history In 1973 the American Psychiatric Association removed homosexuality from its diagnostic classification of mental illness but the groundwork for this pivotal decision was laid decades earlier In this new study Henry L Minton looks back at the struggle of the American gay and lesbian activists who chose scientific research as a path for advancing homosexual rights He traces the history of gay and lesbian emancipatory research from its early beginnings in the late nineteenth century to its role in challenging the illness model in the 1970s By examining archival sources and unpublished manuscripts Minton reveals the substantial accomplishments made by key researchers and relates their life stories He also considers the contributions of mainstream sexologists such as Alfred C Kinsey and Evelyn Hooker who supported the cause of homosexual rights through the advancement of scientific knowledge By uncovering this hidden chapter in the story of gay liberation *Departing from Deviance* makes an important contribution to both the history of science and the history of sexuality
