**Sailing Alone** Richard J. King, 2024-05-21 2024 National Outdoor Book Award Silver Medal Winner A masterfully curated collection You don't have to be a sailor to be blown away by this fascinating bighearted book Nathaniel Philbrick author of *In the Heart of the Sea* *Travels with George and Second Wind* A story as vast and exhilarating as the open ocean itself *SAILING ALONE* chronicles the daring disastrous and often absurd history of those who chose to sail across the ocean in very small boats alone Sailing by yourself out of sight of land can be invigorating and terrifying compelling and tedious and sometimes all of the above in one morning But it is also a wide expanse of time in which to think *Sailing Alone* tells the story of some of the remarkable people who over the last four centuries have spent weeks and months moving slowly over the world's largest laboratory a capricious and startling place in which to observe oneself the weather the stars and countless sea creatures from the tiniest to the most massive and threatening Richard J King profiles characters famous diverse international and obscure from Joshua Slocum of 1898 to modern teenagers daring to take the challenge They see strange hallucinations lie to us and themselves on their travel logs encounter sharks befriend birds and experience ESP all part of the unnerving reality of extended isolation And some

disappear altogether Sailing Alone also recounts the author's own nearly catastrophic solo crossing of the Atlantic and the mystery of his inexplicable survival one sunny afternoon An enormously engaging new book for skippers and armchair voyagers alike

**Reproduction and Development of Marine Invertebrates of the Northern Pacific Coast** Megumi F. Strathmann, 2017-09-05 This reference work is designed to provide background information on an array of northeastern Pacific marine invertebrate species so that they can be more easily included in comparative studies of morphology cell biology reproduction embryology larval biology and ecology It is meant to serve biologists who are new to the field as well as experienced investigators who may not be familiar with the invertebrate fauna of the northern Pacific Coast The species discussed in this volume are mostly from the cold temperate waters of the San Juan Archipelago near Puget Sound and the Strait of Georgia but the information and methods given will be useful in laboratories from Alaska to central California and applicable to some extent in other coastal or inland facilities An introductory chapter discusses basic procedures for collecting and maintaining mature specimens for initiating spawning and for culturing embryos and larvae in the laboratory Subsequent chapters summarize reproduction and development in thirty different invertebrate groups and provided recent references through which additional information can be traced cite monographs or keys needed to identify species and give methods useful for studying an array of selected species Available information on habitat diet reproductive mode egg size developmental pattern developmental times larval type and conditions for settlement and metamorphosis is reported for over 450 species
