Royal Caribbean that are making impressive breakthroughs in water productivity Knowing what to do is not the problem Ultimately the hardest part is changing our water consciousness As Charles Fishman writes Many civilizations have been crippled or destroyed by an inability to understand water or manage it We have a huge advantage over the generations of people who have come before us because we can understand water and we can use it smartly The Big Thirst will forever change the way we think about water about our essential relationship to it and about the creativity we can bring to ensuring that we ll always have plenty of it *The Farmers' Advocate and Home Magazine* ,1928 **Domestic Engineering and the Journal of Mechanical Contracting** ,1925
