The IX Olympiad the ninth volume in The Olympic Century series begins by exploring the Summer Games of Amsterdam 1928 the first to feature the Olympic flame as well as the first to include track and field and gymnastics competitions for women Well established as the world's greatest festival of sport the Olympic Games rose to new heights in Amsterdam The book tells the story of Olympic heroes like Paavo Nurmi the legendary Finnish distance runner who claimed one more gold medal in 1928 to take his personal total to nine from three Olympics and the Canadian sprinter Percy Williams who claimed the title of world's fastest man with golds in both the 100 and 200 metres Amsterdam also saw the triumph of triple jumper Mikio Oda of Japan who became the first gold medalist from Asia and American double gold swimmer Johnny Weismuller who would go on to star in Hollywood as Tarzan the Ape Man Following the Amsterdam Games the focus turns to Lake Placid N Y and the Winter Games of 1932 The book tells the story of athletes like American speed skater Irving Jaffee who lunged for gold in a thrilling photo finish in the 10 000 metres Sonja Henie of Sweden who would claim her second of three consecutive figure skating titles and American Eddie Eagan who would add a team gold in four man bobsleigh to his gold in boxing won in the Antwerp Olympics 12 years earlier Juan Antonio Samaranch former President of the International Olympic Committee called The Olympic Century e The most comprehensive history of the Olympic games ever publishede **The Man Who Broke Capitalism** David Gelles, 2022-05-31 New York Times Bestseller New York Times reporter and Corner Office columnist David Gelles reveals legendary GE CEO Jack Welch to be the root of all that's wrong with capitalism today and offers advice on how we might right those wrongs In 1981 Jack Welch took over General Electric and quickly rose to fame as the first celebrity CEO He golfed with presidents mingled with movie stars and was idolized for growing GE into the most valuable company in the world But Welch's achievements didn't stem from some greater intelligence or business prowess Rather they were the result of a sustained effort to push GE's stock price ever higher often at the expense of workers consumers and innovation In this captivating revelatory book David Gelles argues that Welch single handedly ushered in a new cutthroat era of American capitalism that continues to this day Gelles chronicles Welch's campaign to vaporize hundreds of thousands of jobs in a bid to boost profits eviscerating the country's manufacturing base and destabilizing the middle class Welch's obsession with downsizing he eliminated 10% of employees every year fundamentally altered GE and inspired generations of imitators who have employed his strategies at other companies around the globe In his day Welch was corporate America's leading proponent of mergers and acquisitions using deals to gobble up competitors and giving rise to an economy that is more concentrated and less dynamic And Welch pioneered the dark arts of financialization transforming GE from an admired

industrial manufacturer into what was effectively an unregulated bank The finance business was hugely profitable in the short term and helped Welch keep GE s stock price ticking up But ultimately financialization undermined GE and dozens of other Fortune 500 companies Gelles shows how Welch s celebrated emphasis on increasing shareholder value by any means necessary layoffs outsourcing offshoring acquisitions and buybacks to name but a few tactics became the norm in American business generally He demonstrates how that approach has led to the greatest socioeconomic inequality since the Great Depression and harmed many of the very companies that have embraced it And he shows how a generation of Welch acolytes radically transformed companies like Boeing Home Depot Kraft Heinz and more Finally Gelles chronicles the change that is now afoot in corporate America highlighting companies and leaders who have abandoned Welchism and are proving that it is still possible to excel in the business world without destroying livelihoods gutting communities and spurning regulation
