A Somaesthetics of Performative Beauty Falk Heinrich, 2023-04-14 This book develops an original theory of performative beauty Philosophical aesthetics has largely neglected one's own actions as a potential experience of the beautiful Throughout the book the author uses his own experiences of Argentine tango as a case study one important incentive for social dancing is to have pleasurable and beautiful experiences This book begins by investigating the methodological causes for why beauty in modernity has been seen to result only from contemplating external objects It then builds a theory of performative beauty that incorporates findings from new phenomenology neuroaesthetics enactivism and somaesthetics and that reassesses existing inquiries of beauty The result is an account that identifies kinaesthetic awareness as the point of emergence of both theory and practice of creation poiesis and perception aisthesis and of moving agency and being moved reception Performative beauty is the pleasure of being moved by the dance where the dancer feels both as a creative improviser and as an integrated part of the activity itself A Somaesthetics of Performative Beauty Tangoing Desire and Nostalgia will appeal to scholars and advanced students working in aesthetics dance studies performance studies and related fields of artistic research Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
