The material presented is profitable for instruction to both young and seasoned ministers to explore leadership. *Christian ministry Forming Ministers or Training Leaders?* Anthony Clarke, 2021-06-15 *Forming Ministers or Training Leaders* is a unique book because it is based on a significant piece of empirical research. Anthony Clarke explores the way that the practice among theological colleges in the UK has been changing and develops the concept of the pastoral imagination to express what a theological college is aiming to do with its students. The book then offers an analysis of the pastoral imagination that is in fact at work in a selection of Baptist colleges and other theological institutions in the UK. Alongside this, Clarke offers a coherent and robust theological account of the work of a theological college through engaging with recent trinitarian theology and argues that this is best understood as a process of formation which embraces other ideas of training and education.
